INSTRUCTIONS FOR INSTALLING AND USING THE VPN SERVICE

Windows10, Windows 8, Windows 7, Windows Vista

To start with, download on your computer and install the following file:

<https://www.aueb.gr/help/program/aueb-openvpn-installation.exe>

To do this, while pressing and holding down the Ctrl button of the keyboard, click on the above link. Then save the file, and double click on it to open it.

This starts the installation process, during which choose **Next** → **Install** → **Next** → **I Agree** → **Next** → **Install** → **Continue Anyway** ή **Συνέχεια** → **Next** → **Finish** → **Finish**.

To start the OpenVPN client program you just installed on your PC, do a **right click** → **Run as**

Administrator on the icon on your windows desktop. The little icon  appears at the bottom right corner of your screen. This tells us that the OpenVPN client program has started, and waits for us to ask it to start a connection.

To start a VPN connection, double click on . The windows shown on figure 1 appear. In the **OpenVPN–User Authentication** window type your username (the before the @ part of your email address) and password (the same you use for your AUEB e-mail, wireless, and dial-up services). Then press **OK**. After a while the little icon becomes , and the connection has started.

Figure 1

To disconnect from the VPN service, **right click** on the , and choose **Disconnect**. Please note, that it's recommended you disconnect from the VPN service after finishing using the services for which you need the VPN connection (such as the library services).
