English:

[Prof. Phoebe Koundouri](#) is a world-renowned environmental economics professor and global leader in sustainable development. She is a [Professor](#) (the university's highest academic rank) at the School of Economics at the [Athens University of Economics and Business](#) Professor at the Department of Technology, Management and Economics, [Technical University of Denmark](#) (DTU). Before her election at the Athens University of Economics and Business, she held academic positions at the University of Cambridge, University College London, University of Reading, London School of Economics. Prof. Koundouri holds MPhil and a PhD in Economics and Econometrics from the University of Cambridge. For her studies she received a full scholarship from the University of Cambridge and the Cambridge Commonwealth Trust.

She is widely recognized as a pioneer in innovative, human-centric, interdisciplinary systems for the sustainable interaction between nature, society, and the economy. She is included within the official Stanford University list of the [Top 2 % of world scientists](#) and she is listed in the [1% of most-cited women economists](#) in the world, with 15 published [books](#) and more than 600 published peer reviewed scientific [articles](#), more than 100 interdisciplinary research projects (with competitive international funding - a number of which also concern Cyprus) and head/member of the editorial board in more than 30 scientific journals of international prestige.

Prof. Koundouri is an elected member of [Academia Europae](#), member of the [European Academy of Sciences and Arts](#), elected Member of Board of the Trustees of the [World Academy of Art and Science \(WAAS\)](#), member of the [InterAcademy Partnership \(IAP\)](#) Board and member of the Nominating Committee for the Prize in Economics Sciences in Memory of Alfred Nobel, The Royal Swedish Academy of Science. In 2019, she was elected President of the [European Association of Environmental and Resource Economists](#) (EAERE), the biggest scientific association in the field, with more than 1500 member institutions, from more than 75 countries. She is also Chair of the the [World Council of Environmental Resource Economists Association](#). In 2020 she received the prestigious European Research Council [ERC Synergy Grant](#), entitled: "[Smart Water Futures: Designing the Next Generation of Urban Drinking Water Systems](#)". Currently, this is the largest research project in the world on urban water systems.

In 2023, Prof. Phoebe Koundouri has been [awarded](#) the Academy of Athens Excellence in Science Award 2023 for her contribution to the advancement of the Science of the Marine Environment by the President of the Academy of Athens, Michael-Konstantinos Stathopoulos, and the Secretary General, Christos Zerefos. This Award, given every four years, constitutes the epitome of academic recognition in Greece.

Over the past three decades, she has given speeches and lectures at high-level international forums around the world and received academic excellence awards including the EAERE European Research Project Award, best paper awards, paper with the greatest impact on policy making, etc.

Prof. Koundouri is chair of the [SDSN Global Climate Hub](#), co-chair of [SDSN Europe](#) and [SDSN Greece](#), while she is founder of the [Alliance of Excellence for Research and Innovation on Aeiphoria](#) (AE4RIA), an initiative for collaboration between (i) **research institutions** which she

co-leads: [ReSEES: Research on Socio-Economic and Environmental Sustainability](#) and [Stochastic Modeling and Applications Laboratory](#) at [Athens University of Economics and Business](#), the [Sustainable Development Unit \(SD.U\)](#) at [ATHENA Research Center](#)), (ii) **Innovation Acceleration Hubs:** [SDSN Global Climate Hub](#), EIT Climate-KIC, [BRIGAD-Connect: Technologies for Climate Adaptation](#), [MENA Maritime Accelerator](#) and [Black Sea Accelerator](#) and (iii) **Associations and science-policy networks:** [Sustainable Development Solutions Network](#), [SDSN Europe](#), [SDSN Greece](#), [European Association of Environmental and Resource Economists](#), [Nexus Cluster](#), [Water Europe](#).

AE4RIA involves more than [200 researchers](#) (economists, mathematicians, statisticians, engineers, natural scientists, as well as experts from the social and human sciences) with the mission of shaping the necessary human-centered techno-economic transformation towards the joint implementation of the Sustainable Development Goals UN 2030 Agenda, the Paris Agreement on Climate Change and the European Green Deal. AE4RIA's work has influenced the formulation of European and Global policies related to the management of natural resources, and the crises of climate change and ecosystem collapse.

Prof. Koundouri is one of the Commissioners of the prestigious [Lancet Commission on COVID-19](#) for which she co-chairs the "Green Recovery" Task Force. She co-leads with Prof. Jeff Sachs (president of SDSN) the [UN SDSN Senior Working Group](#) on "Transformation Pathways for the implementation of EGD and the SDGs". She is also member of the National Climate Change Committee of Greece, of the Ministry of Energy and the Environment, was member of the 2021 Pissarides Committee (10 year Greek Development Plan) chaired by Nobelist Prof. C. Pissarides, and IPCC (Intergovernmental Panel for Climate Change) delegate and European Climate Pact Ambassador for the European Commission.

Prof. Koundouri acts as a scientific advisor to the European Commission, World Bank, European Bank of Reconstruction and Development, OECD, UN, NATO, WHO, World Water Council and various other Multilateral Institutions, as well as numerous national and international foundations and organizations. She also advises national governments across the world.

Prof. Koundouri lives in Greece (Athens) with her husband, Prof. Nikitas Pittis, and their three daughters: Chrysilia, Billie and Athena.

SHORT BIO

[Prof. Phoebe Koundouri](#) is University Professor (the university's highest academic rank) at the School of Economics, Athens University of Economics and Business, and [Professor](#) at the Department of Technology, Management and Economics at [Denmark Technical University](#). She is listed in the most-cited women economists in the world, included within the official Stanford University list of the [Top 2 % of world scientists](#), with 15 published [books](#) and more than 500 published peer reviewed scientific [articles](#), book [chapters](#), research and policy [reports](#).

Prof. Koundouri is an elected member of [Academia Europae](#), in the section [Economics, Business and Management Sciences](#), elected Member of Board of the Trustees of the [World Academy of Art and Science \(WAAS\)](#), member of the [InterAcademy Partnership \(IAP\)](#) Board. She is also a member of the Nominating Committee for the Prize in Economics Sciences in Memory of Alfred Nobel, The Royal Swedish Academy of Science.

Prof. Koundouri is economist and econometrician focused on sustainable development. Her work focuses on developing innovative, human-centric, interdisciplinary systems for the sustainable interaction between nature, society, and the economy. Central to my research is the study of human decision-making processes over time and under uncertainty, and the understanding of how these processes translate into value for goods and services, which has important economic consequences. She is particularly interested in understanding the determinants of the total economic value (including use and passive values) of public goods and services, as well as the values of global externalities like climate change. Given that the value of public goods is not documented in any markets, her work focuses on inferring this value using experimental approaches. Moreover, time and uncertainty are correlated, while uncertainty often takes the form of ambiguity (when probabilities of uncertain events are unknown) so she is working on a unifying framework, which must be derived from a deeper understanding of the structure of human decision processes and the need to have a framework for short and long run decisions.

Prof. Koundouri holds a PhD and MPhil in Economics and Econometrics from the University of Cambridge (UK). For her studies she received a full scholarship from the University of Cambridge and the Cambridge Commonwealth Trust.

In 2019, she was elected President of the [European Association of Environmental and Resource Economists](#) (EAERE), the biggest scientific association in the field, with more than 1500 member institutions, from more than 75 countries. She is also chair of the [World Council of Environmental Resource Economists Association](#). In 2020 she received the prestigious European Research Council [ERC Synergy Grant](#), entitled: “[Smart Water Futures: Designing the Next Generation of Urban Drinking Water Systems](#)”. Currently, this is the largest research project in the world on urban water systems.

In 2023, Prof. Phoebe Koundouri has been [awarded](#) the Academy of Athens Excellence in Science Award 2023 for her contribution to the advancement of the Science of the Marine Environment by the President of the Academy of Athens, Michael-Konstantinos Stathopoulos, and the Secretary General, Christos Zerefos. This Award, given every four years, constitutes the epitome of academic recognition in Greece.

Prof. Koundouri is chair of the [SDSN Global Climate Hub](#), co-chair of [SDSN Europe](#) and [SDSN Greece](#), while she is founder of the [Alliance of Excellence for Research and Innovation on Aeiphoria](#) (AE4RIA), an initiative for collaboration between research institutions which she co-leads ([ReSEES Laboratory](#) and [Stochastic Modeling and Applications Laboratory at Athens University of Economics and Business](#), the [Sustainable Development Unit \(SD.U\) at ATHENA Research Center](#)), [Innovation Acceleration Hubs](#) ([SDSN Global Climate Hub](#), [EIT Climate KIC Hub Greece](#), [MENA Maritime ClimAccelerator](#) and [BRIGAIID Connect Association](#)) and associations and science-policy networks: [UN SDSN](#), [SDSN Europe](#), [SDSN Greece](#), [EAERE](#), [NEXUS Cluster](#) and [Water Europe](#).

Prof. Phoebe Koundouri is the Founder and Scientific Director of the [Research Laboratory on Socio-Economic and Environmental Sustainability](#) (ReSEES) at Athens University of Economics and Business. She is also Affiliated Professor at the ATHENA Research and Innovation Center (Greece), where she founded and directs the [Sustainable Development Unit \(SD.U\)](#) and the [EIT Climate-KIC Hub Greece](#) of the European Institute of Innovation and Technology, focusing on accelerating innovations for the transition to a climate neutral economy. She is Chair of

the Scientific Advisory Board of the [International Centre for Research on the Environment and the Economy](#) (ICRE8), and Chair of the [Scientific Advisory Board of the European Forest Institute](#).

In the past, Professor Koundouri has held academic positions at the University of Cambridge, University College London, University of Reading and London School of Economics. She acts as an advisor to the European Commission, World Bank, EIB, EBRD, OECD, UN, NATO, and WHO, etc. numerous national and international foundations and organizations, as well as national governments in all five continents.

She is one of the Commissioners of the [Lancet Commission on COVID-19](#) for which she co-chairs the "Jobs-based Green Recovery Task Force". She co-leads the UN SDSN Senior Working Group on "Transformation Pathways for the implementation of EGD and the SDGs", co-leads the UN SDSN Sustainable Shipping and Ports and Shipping Initiative, and the UN SDSN 4-seas (Mediterranean, Black, Caspian and Aral Seas) Blue Growth Initiative. She is a member of the [CEPR](#) (Center for Economic Policy Research) Network (RPN) on Climate Change, member of the Priministerial Committee for the Recovery and 10-year Development Plan of Greece, the Climate Change Committee of the Greek Ministry of Environment and Energy, as well as numerous European and International Scientific, Research and Policy Boards and Committees. Since 1997, she has coordinated more than 100 interdisciplinary research projects and has attracted significant competitive research funding. Professor Koundouri and her large interdisciplinary team have produced research and policy results that have contributed to accelerating the research commercialization for the sustainability transition in Europe as well as contributed to shaping European policies.

Over the past three decades, she has given speeches and lectures at high-level international forums around the world and received academic excellence awards including the EAERE European Research Project Award, best paper awards, paper with the greatest impact on policy making, etc.

Ranked in the world [top IDEAS Female Economists](#) worldwide, Professor Koundouri is a highly cited academic author, with 15 edited books and monographs, and more than 250 scientific papers in peer reviewed journals and edited volumes in the following fields of research: Economics and Econometrics¹, Mathematics, Social Sciences, Environmental Sciences, Geosciences, Multidisciplinary. Her work focuses, mainly but not exclusively, on microeconomic and econometric modelling and analysis, with applications to natural resources and climate change, sustainable development and the sustainability transition, sustainable finance, non-market valuation, long-run costs benefit analysis and relevant discounting issues, as well as interdisciplinary approaches to natural resources management, and more recently philosophy of science. Central to Professor Koundouri's research is the concept of the 'total economic value of public goods' and in particular the value humans derive from natural resources and their ecosystem services, within a framework of uncertainty and ambiguity. Her main research goal is to refine the theoretical models and empirical methods used in the field of natural resources economics, towards: (a) better understanding of the concept and determinants of the total economic value of ecosystem

goods and services, (b) more accurate modelling of this value, (c) more robust estimation of this value, (d) more efficient integration of this value in interdisciplinary resource management and policy-making, (5) financing the conservation of this value, while incentivizing the development of technological and social innovations that integrate the results of this research, and accelerating these innovations in the market.

Professor Koundouri is co-editor of the journal of Environmental and Resource Economics, associate-editor of the Review of Environmental Economics and Policy, the official journals of the European Association of Environmental and Resource Economists and guest editor to Special Issue "The Transition to Sustainable Shipping and Ports". She is also member of the Scientific Advisory Board of "Economia Agro-Alimentare/Food Economy", the journal published by FrancoAngeli on behalf of SIEA, the Italian Society of Agri-food Economics <https://www.economiaagroalimentare.it/>

She is (was) also associate editor and/or editorial board member in more than 30 academic journals (including Water Resources and Economics, Environment and Development Economics, Economics-ejournal).

She is expert in the following working groups of EESC: a) ECO/505 – consultation on EGD, b) ECO/504 – consultation on fund for fair transition and amendments to the Regulation on common provisions, c) ECO/500 – consultation on taxation in the cooperative economy. She is member of the steering committee of [Nexus Project Cluster](#), a group of independent research initiatives .

Between 1991 and 2006, while based in the UK, she held fixed-term and tenure track academic positions at the University of Cambridge, University College London, University of Reading. In 2006 she relocated to Greece, where she is now Professor at the Athens University of Economics and Business. She was also a visiting Research Fellow at the Centre for Climate Change Economics and Policy, London School of Economics (2014-2018), while she held numerous visiting positions worldwide.

Professor Koundouri is an advisor to the European Commission, World Bank, EIB, EBRD, OECD, UN, NATO, WHO, numerous national and international foundations and organizations, as well as national governments. Since 1997, she has coordinated more than 100 interdisciplinary research projects on Sustainability issues, and together with her team, has attracted significant competitive research funding. She has supervised many PhD students and co-established a master course in Energy Economics and Law at the Athens University of Economics and Business. She is teaching at this MS course Environment and Health, at National and Kapodistrian University of Athens. She has organized more than 50 prestigious international conferences, workshops, summer schools and training courses, including the annual conference of the European Association of Environmental and Resource Economists in 2017, with more than 1000 participants. She has co-established the annual Sustainability Summit of South East Europe and the Mediterranean, an event co-organized by UN SDSN, EIT Climate KIC and The Economist Events. The Summit has developed into an annual meeting of high-profile academics, technology developers, politicians, policy makers and civil society stakeholders, convening networks of expertise, mobilizing resources and influencing regional policy for the urgently needed sustainability transitions.

Professor Koundouri and the large interdisciplinary AE4RIA team (more than 200 researchers) that she directs has produced research and policy results that have contributed to shaping European policies with regards to integrated and holistic management of the interaction between nature and people. Over the last two decades, Professor Koundouri has given

keynote and public lecturers all over the world, and received scholarships and prizes for academic excellence from various academic institutions and associations.

Professor Koundouri was born in Cyprus in 1974 and is married to Prof. Nikitas Pittis. They are based in Athens (Greece) where they live with their three daughters, Chrysilia, Billie and Athena.

In July 2019, Prof. Phoebe Koundouri was elected President of the European Association of Environmental and Resource Economists <https://www.eaere.org/> with 53.51% of votes. In 2023 she was also elected Chair of the [World Council of Environmental Resource Economists Association](#).

EAERE is the oldest, largest and most prestigious Scientific Association of Environmental and Resource Economists. Founded in 1990, EAERE has more than 1200 members in over 60 countries from Europe and beyond, from academic and research institutions, international organisations, the public sector, and the business world. Membership is open to individuals who by their profession, training and/or function are involved in environmental, climate and resource economics as a science, and to institutions operating in fields connected with the aims of the Association.

Prof. Phoebe Koundouri's EAERE Presidential Candidate Note

In October 2018 the IPCC special report on “Global Warming of 1.5 °C” warned that there are only a dozen years for global warming to be kept to a maximum of 1.5C, beyond which, even half a degree will significantly worsen the risks of drought, floods, extreme heat and poverty for hundreds of millions of people around the globe. Urgent and unprecedented changes are needed to reach the target. EAERE should and must play a central role in the needed sustainability transition!

I believe that EAERE members research outputs and policy initiatives can have an instrumental role in creating a prosperous, inclusive, climate-resilient society with a circular, zero-carbon economy. Why? Well, EAERE not only boasts members which include the majority of the most influential scientists in the field, but it also organizes the most prestigious annual international conference in the field, bringing together in fruitful discussion hundreds of research and policy institutions. In addition, its official journals, ERE and REEP, shape a significant part of the relevant research agenda. Moreover, EAERE has strong research and policy related dissemination impact in more than 30 countries, via national representatives, while it works on re-enforcing its policy role, through the newly developed “Policy Outreach Committee”.

I am truly and deeply honored to be nominated for EAERE presidency, and I sincerely thank the nominating committee and the council for their trust. If I am elected, I believe I can contribute to continuing and advancing the already excellent work carried out by our association.

Let me first quickly say that I am currently ERE co-editor and REEP associate-editor, have served as EAERE vice-president for 2 years and council member for 4 years, EAERE newsletter editor for 4 years, president of the EAERE fellow-nomination committee, member of president-nomination committee, member of the policy outreach committee, member of the annual conference scientific committee and country representative for more than 15 years,

and was the chair of both the scientific and local organizing committees of the 2017 EAERE conference. The last 20 years, the association has been my academic home!

If I am elected, I will do my best to serve the association along the following 4 directions, by formulating respective consultation groups composed by EAERE members and key members from corresponding communities, as well as devoting lots of energy to leveraging the needed grants smartly and efficiently.

1. I will encourage EAERE to continue to seek to meet the highest expectations of scientific merit, in a way that will increase its visibility and influence amongst the relevant associations on other continents, as well as in the general economics profession. This can be achieved through inter-association merit-based awards, fellowships and joint academic events/projects/special issues etc., which can be stimulated via capitalizing on our members' academic networks, while mobilizing grants from selected funding organizations, which will support these activities. Such visibility will also help in attracting international sponsorships earmarked for lowering the participation fee for our annual conference.

2. I will encourage EAERE to embrace more explicitly interdisciplinary scientific work. Almost all applied problems are interdisciplinary, hence scientific solutions need to be interdisciplinary and support socio-economic and environmental sustainability. That said, interdisciplinary work is difficult and expensive. Given my 20 years of experience and passion for interdisciplinary work, I can bring the association closer to the relevant academic community and funding sources. Given my 20 years of collaboration with DG Research and Innovation, I will invest time in increasing the influence of the association in formulating the priorities of research and innovation policy at the European Commission.

3. I will put a lot of effort in bringing our academic community closer to the innovation community that catalyzes and nurtures innovation, from large corporations, research institutes and public bodies, through to start-ups and individual entrepreneurs. Technological and social innovations ought to integrate our scientific results, while their acceleration in the market should be supported by our expertise in market, financial and economic sustainability. Such a strategy will encourage fresh new thinking from beyond the mainstream and I drive work towards achieving this aim in my capacity as Director of EIT Climate KIC Greece (and member of EIT Climate KIC Europe, www.climate-kic.org).

4. I will continue to reinforce EAERE's role in being an influential bridge between the academic community and the other stakeholders that are instrumental in the implementation of the sustainability transition: politicians, policy makers, businesses and the civil society. My role as co-chair of UN SDSN Greece (and member of UN SDSN Global, unsdsn.org, unsdsn.gr) places me in a unique position to facilitate this work.

I believe that the above strategy will enhance EAERE's role in the urgently needed sustainability transition.

Looking forward to seeing you all in Manchester!

Phoebe.

RESEARCH THEME & MAJOR FIELDS OF INTEREST

Central to my research is the concept of 'total economic value of public goods' and in particular the value humans derive from natural resources/ environment/ecosystem. My main research goal is to produce a structured and methodologically sound approach towards capturing the total economic value of public goods, demonstrating this approach to policy makers and achieve its integration in natural resource economic policy. In my view this is the only sustainable way forward for our environment, economy and society.

In doing so I am working on refining the theoretical models and empirical methods used in the field of natural resource, ecological & agricultural economics, towards: (a) better understanding of the concept and determinants of the total economic value of ecosystem goods and services under uncertainty, (b) more accurate modelling of this value, (c) more robust estimation of this value, (d) more efficient integration of this value in long-run cost benefit analysis, interdisciplinary resource management and policy-making.

More technically, I work towards: (a) improving the real world relevance of the mathematical (theoretical) models focused on capturing the total economic value of ecosystem goods and services (mainly by incorporating dynamic and intergenerational, spatial, information creation and diffusion, risk and uncertainty elements, informed not only by economics but also by other relevant disciplines), (b) improving the link between theoretical and empirical models on this total economic value, by homogenising their mathematical and statistical underpinnings and then refining the models, (c) improving the econometric applications of the empirical models to real world data, (d) incorporate the derived empirical estimates in the implementation of natural resource cost-benefit analysis and development of management policy.

I have applied refined theoretical and empirical models to the economic analysis of various natural resources (inland - groundwater and surface-, coastal and marine waters, renewable energy, land, forest, biodiversity, etc.) and a number of economics sectors (agriculture, industry, services, etc.) in quite a few case studies all over the world. My refined models, methods and estimates, have been cited and used by many colleagues in economics and interdisciplinary research, and have influenced policy-making mainly in the EU, but also the US and Asia. Lately some of my models and methods have been incorporated into decision support e-tools for natural resource management and cost-benefit analysis.

In a nutshell, *I aspire that my contribution to the field of environmental economics is mainly methodological* and aims at further integrating: (a) the natural resource mathematical modelling literature, (b) the non-market valuation (econometric) literature, (c) the market valuation (econometric) literature, towards making the concept of total economic value the driving force of natural resource economic policy, while acknowledging the need to work in an interdisciplinary framework.

Finally, in my capacity as EIT Climate KIC HUB Greece direct, I am actively involved in incentivizing and accelerating in the market, technological and social innovations that integrate the results of sustainability research. In particular at EIT Climate KIC, we convene networks of expertise, leverage grants smartly and efficiently, develop people and capacity and catalyze innovation that is urgently needed for the worldwide sustainability transition.

Below a list of areas I work in, using Economic Literature and Natural Sciences traditional categorizations:

1. Agricultural Economics: Micro Analysis of Farm Firms, Farm Households, and Farm Input Markets; Agricultural Finance; Land Ownership and Tenure; Land Use; Irrigation; Agriculture and Environment; R&D and Agricultural Technology; Biofuels; Agricultural Extension Services; Agricultural Policy; Food Policy.
2. Natural Resources (Renewable and Non-Renewable) Economics and Econometrics: Resources: Inland water (surface and groundwater) resources; Fisheries, aquaculture and oceans resources (hydrocarbons, hydrogen, wind and wave energy); Forest resources; Energy (renewable) sources; Biodiversity and ecosystem service (Ecological Economics); Land use; Recreational aspects of natural resources; Air. Pollution: Air Pollution; Water Pollution; Noise; Waste. Climate Change (and intergenerational issues).
3. Long-Run Discounting and Cost-Benefit Analysis, Economic Sustainability.
4. Uncertainty, Risk and Irreversibility, Natural Disasters.
5. Benefit Valuation: Choice Modeling, Contingent Valuation, Hedonic Pricing, Travel Cost, Benefit Transfer, Cost-Benefit Analysis.
6. Behavioral and Social Aspects: Experimental Economics, Consumption and Demand, Distributional Aspects.
7. Production and the Environment: Production/Cost Function; Micro-Econometrics, Production Technology Adoption and Diffusion; Processes, Production Under Uncertainty and Risk Preference Estimation.
8. Regulation and Instruments: Price-based MBI, Quantity-based MBI, Voluntary Approaches, Externalities, Other Market Failures.
9. Game Theory and the Environment.
10. Health and the Environment.
11. Interdisciplinary Approaches to Natural Resources Management and Policy.
12. Econometric Methods: Time Series, Cross-Section, Panel, Parametric/Non-parametric.
13. Philosophy of science applied to economics (general), econometrics and environmental and resource economics.

³As part of the Bank-Netherlands Water Partnership Program, and with complementary support from the British Department for International Development (DFID), the World Bank has established the Groundwater Management Advisory Team (GWMATE). GWMATE is a core group of experienced specialists in the multidisciplinary and multifaceted area of groundwater management. They act globally to develop capacity and capability in groundwater resource management and quality protection. The strategy is to use the World Bank project activities, together with the Global Water Partnership (GWP) regional networks, as the points of entry to achieve this goal.

Since 2017, in my capacity as UN SDSN Greece Co-chair and Director of Climate KIC Hub Greece, I co-organize with “The Economist” an annual **Sustainability Summit for South East Europe and the Mediterranean, in Athens.** This has been established as the major annual Sustainability event in Greece with vast participation from academic, political and bussiness leaders. <https://events.economist.com/events-conferences/emea/the-second-sustainability-forum-for-south-east-europe-and-the-mediterranean/>

Overview of 2018 event: Following the adoption of the 17 Sustainable Development Goals within the context of Agenda 2030, governments and the private sector are working on establishing ways and practices that will allow efficient and effective implementation of the Goals. On the way to achieving sustainability by 2030, technological developments, innovative practices and materials, sustainable investment and new partnerships are being pursued, with the hope to lead humanity to this new era of development and welfare. On the other hand, conceptual challenges, weak governance structures and institutions, limited transparency and financing restrictions are only some of the shortcomings that hinder progress toward this end.

- Can these shortcomings be overcome?
- Can modern tools, action plans and initiatives be created and implemented to effectively engage in the promotion of the SDGs?
- Is it possible to cut across the isolation of sectors and create synergies overcoming the Silo Effect?
- How will private businesses at the national and global level turn this challenge into new opportunities and prepare for the future?

Luncheon Panel on Climate Change, Marianna Vardinogiannis Foundation, Athens, 22 January 2020 "European Green Deal: Challenges and Opportunities".**

ABSTRACT: According to IPCC latest report, we have 10 years to limit climate change catastrophe and keep global warming to a maximum of 1.5 C, a point beyond which even half a degree will significantly worsen the risks of drought, floods, extreme heat and poverty for hundreds of millions of people. Global net human-caused emissions of carbon dioxide (CO₂) would need to drop by about 45% from 2010 levels by 2030, reaching "net zero" around 2050.

The European Green Deal is a roadmap for making the EU's economy sustainable by turning climate and environmental challenges into opportunities across all policy areas and making the transition just and inclusive for all. The European Green Deal is our new growth strategy and provides a roadmap with actions to boost the efficient use of resources by moving to a clean, circular economy and stop climate change, revert biodiversity loss and cut pollution. It outlines the investments needed and financing tools available and explains how to ensure a just and inclusive transition. The European Green Deal covers all sectors of the economy, notably transport, energy, agriculture, buildings, and industries such as steel, cement, ICT, textiles and chemicals.

This panel aims to discuss the potential of Greece's research and innovation ecosystem, together with the financial and policy institutions, to accelerate the much-needed sustainability transition and implement the European Green Deal. By showing the rest of the world how to be sustainable and competitive, we can convince other countries to move with us.

- *Implementing the Economic Aspects of the Water Framework Directive under Data Limitations: A Rapid Appraisal Approach.*

45. Conference in Economic Theory and Econometrics, CRETE 2009, Tinos, 8-12 July, 2009.

- *Testing Government Trust: A Choice Experiment on Forest Fires.*

44. 2nd International Conference on Water Economics, Statistics, and Finance, Alexandroupolis

- **Thrace, Greece, 3-5 July 2009, <http://www.soc.uoc.gr/iwa>**

- *Assessing the Economic Viability of Alternative Water Resources in Water Scarce Regions: The Role of Economic Valuation, Cost-Benefit Analysis and Discounting*

- *Implementing the Economic Aspects of the Water Framework Directive under Data Limitations: A Rapid Appraisal Approach.*

43. 17th Annual Conference of the European Association of Environmental and Resource Economists, VU University in Amsterdam, The Netherlands. 24 - 27 June 2009

- *A Duration Model of Technology Adoption under Production Uncertainty: Theory and Application to Irrigation Technology*

- *Tradable Permits Vs Ecological Dumping (Available [here](#))*

- *Assessing the Economic Viability of Alternative Water Resources in Water Scarce Regions: The Role of Economic Valuation, Cost-Benefit Analysis and Discounting*

- *Implementing the Economic Aspects of the Water Framework Directive under Data Limitations: A Rapid Appraisal Approach.*

42. International Association of Agricultural Economics Conference, Beijing, August 16-22, 2009.

- *Assessing the economic viability of alternative water resources and policy instruments in water*

scarce regions: The roles of economic valuation cost - benefit analysis and discounting.

41. 11th International Conference on Environmental Science and Technology - CEST2009 - Chania, Crete, Greece. 3-5 September 2009.

- *Testing Government Trust: A Choice Experiment on Forest Fires.*

40. 10th Annual BIOECON Conference, Cambridge, United Kingdom, 28-30 September 2008.

- *The optimal management of wetlands: quantifying trade-offs between flood risks, recreation and biodiversity conservation.*

39. 16th Annual Conference of the European Association of Environmental and Resource Economists that will be held in Gothenburg, Sweden 25 - 28 June 2008.

- *Decreasing Discount Rates: Economic Justifications and Implications for Long-Run Policy.*

- *The Importance of Model Selection in Choice Experiment Valuation: A Case study on travel time savings, accidents and pollution reduction, from a highway construction in Greece.*

- *Valuing a Wind Farm Construction: A contingent valuation study in Greece. Energy Journal.*

- *Optimal Second-Best Environmental Policies under Uncertainty. (Available [here](#))*

- *Optimal management of wetlands: quantifying trade-offs between flood risks, recreation and biodiversity conservation.*

38. Economic Policy panel meeting in Ljubljana, Slovenia, 18-19 April 2008.

- *Decreasing Discount Rates: Economic Justifications and Implications for Long-Run Policy*

37. NTERREG III B (MEDOCC Programme) European Conference on Mediterranean Studies on Renewable Energy Sources and their contribution to Sustainable Development, Athens, Greece, Feb 14-15, 2008.

- *Valuing a Wind Farm Construction: A contingent valuation study in Greece.*

36. Jean Monnet International Conference on Protection, Restoration and Sustainable Development of Natural and Cultural Environment in Europe, Aristotelion University of Thessaloniki, Greece, Nov 30th-Dec 01, 2007.

- *The optimal management of wetlands: quantifying trade-offs between flood risks, recreation and biodiversity conservation.*

35. 15th Annual Conference of European Association of Environmental Resource Economists, University of Macedonia, Thessaloniki, Greece, June 27-30, 2007.

- *Integrating Wetland Management into Sustainable Water Resources Allocation: The Case of Akrotiri Wetland in Cyprus.*

34. Ninth Annual BIOECON Conference on 'Economics and the Analysis of Ecology and Biodiversity', Kings College Cambridge, September 20-21, 2006.

<http://www.bioecon.ucl.ac.uk/>

- *Water resources management and wetland conservation: The case of Akrotiri wetland in Cyprus.*

33. 3rd International Symposium on Integrated Water Resources Management, Reducing The Vulnerability of Societies Against Water Related Risks at the Basin Scale, 26 - 28 September 2006 Ruhr-University Bochum, Germany.

- *Water resources management and wetland conservation: The case of Akrotiri wetland in Cyprus*

- *Using a Choice Experiment to Account for Preference Heterogeneity in Wetland Attributes: The case of Cheimaditida wetland in Greece.*

32. 3rd World Congress of Environmental and Resource Economists, Kyoto, Japan, July 3-7, 2006. <http://www.worldcongress3.org/>

- *Declining Discount Rates: A Cross-Country Comparison.*

- *The Value of Property Rights in Groundwater Extraction: A Choice Experiment.*

- *Using a Choice Experiment to Account for Preference Heterogeneity in Wetland Attributes: The case of Cheimaditida wetland in Greece.*

31. The European Agricultural Economists Congress, Copenhagen, August 24-27, 2005.

9. 79th Seminar of the European Association of Agricultural Economists (EAAE): Risk and Uncertainty in Environmental and Resource Economics 2002, June 5-7, Wageningen University, The Netherlands.

- *Stochastic Technology and Risk Attitudes in Agricultural Production*.

8. 7th Spring Meeting of Young Economists 2002, April 18-20, University of Paris 1, Paris, France.

- *On the Use of the Stochastic Distance Function to Deriving Resource Scarcity Rents*.

7. ASSET Euro Conference, October, 2001, Rethymno, Crete, Greece.

- *Stochastic Technology and Risk Attitudes in Agricultural Production*.

6. Eleventh Annual Conference of the European Association of Environmental and Resource Economists, June, 2001, Department of Economics, University of Southampton, UK.

- *On the Use of the Stochastic Distance Function to Deriving Resource Scarcity Rents.*

5. ASSET Euro Conference, November, 2000, Lisbon, Portugal.

- *Measuring Natural Resource Scarcity: A Distance Function Approach.*

4. 70th Annual Seminar of the European Association of Agricultural Economists, August 2000, University of Thessalonica, Greece.

- *On the Use of the Stochastic Distance Function to Deriving Resource Scarcity Rents.*

3. Tenth Annual Conference of the European Association of Environmental and Resource Economists, June, 2000, University of Crete, Rethymnon, Crete, Greece.

- *Dynamic Adaptation to Resource Depletion with Backstop Technology: A Partial Resolution of the Gisser-Sanchez Effect.*

2. Mediterranean Conference: 'Policies and Strategies for Desalination and Renewable Energies', Santorini, Greece, June 2000, National University of Athens, Renewable Energy Sources Unit, Athens, Greece.

- *Dynamic Adaptation to Resource Depletion with Backstop Technology: A Partial Resolution of the Gisser-Sanchez Effect.*

1. Annual Conference of American Economic Association, 1998, Berlin, Germany.

- *Reconsidering the Mathematical Structure of the Gisser-Sanchez Paradox in Water Resource Management.*

Workshop Presentations and Meetings

103. participated at the Springer Nature European Research Advisory Council in Berlin, 30/11/22

102. participated in the Annual Meeting of the Board of Trustees of the [World Academy of Arts and Sciences](#) (WAAS), 11/10/22

101. 10-11/03/22 "Intelcomp Technical Meeting" Intelcomp project, hybrid, ATHENA RC & online

100. 04/03/22 ATHINAIKI WORKSHOP: 11th Workshop for the project "Water for Tomorrow

99. 31/01/22 ATHINAIKI WORKSHOP: 10th Workshop for the project "Water for Tomorrow

98. 10-14/01/22, ERC Panel meeting, ERC reviews, Brussels & online

97. Expert Lecture, International FDP (OE4BW) UNESCO Project, on Environment and Sustainability for 614 faculty from India, 26 May 2020.

Phoebe Koundouri, Curriculum Vitae, 2021

96. 1st Academia & Institutions Pillar Live Session. Innovation Shipping Cluster workshop. A new SHipping Innovation Cluster in the making and Prof. Phoebe Koundouri is part of it [#5PillarsStrong](#) initiative being driven by Optima-X and Fathom World., 25 May 2020
95. Invited Speaker, Delphi Economic Forum V, Delphi, Greece. 5-8 Mar 2020:
- Sustainable Shipping and Ports: UN SDSN Global Rountable
- Climate Change Effects on Cultural and Natural Heritage: The Greek UN Initiative
94. Invited Speaker, AXXA Workshop, Royal Olympic Hotel, Athens. 3 Dec 2019: Climate Change and the Insurance Market.
93. Invited Speaker, There is no Plan(et) B: A Climate Reality Workshop, 21 Nov 2019, Athens.
92. Invited Speaker, European Comission DG Mare, October, 2019, Brussels: Workshop on "Study on the Economics Impact of Maritime Spatial Planing".
91. Workshop on the Cluster of Water-Food-Energy Nexus European Commision Project, 29th Oct 2019, Brussels. Title of my speech: SDGs and Education
90. Invited Speaker to " EIT RawMaterials: 3rd Greek Raw Materials Community Dialogue " , Athens, 4th-5th of December 2018.
89. A.C. Laskaridis Charitable Foundation, Athens, 20th of November 2018.
Presentation on " Blue Economy "
88. ELTRUN, AUEB - "The Next Day for Energy Efficiency" ,
International Workshop
87. Invited Speaker to "Heineken Growth Makers Nights" ," Orange Grove " ,
30 October 2018
86. Invited Speaker to Delphi Economic Forum IV entitled "Inclusive Growth". The Forum will take place in historic Delphi, Greece, a UNESCO world heritage site,from February 28th to March 3rd, 2019.
85. Invited Speaker to the "UN SDSN Black Sea Launch event", Aristotle University of Thessaloniki, 25 October 2018.
84. Keynote Speaker, Session 4: "IMPLICATIONS, ecosystem services and socio-economy", GLOBAQUA FinalConference entitled "Water river management under water scarcity andmultiple stressors" 18-19December 2018, Barcelona (Spain)
83. Lecture on " the Water Policy and Managementcourse " , 8 September 2018, Graduate School of Public Policy, Nazarbayev University, Astana, Republic of Kazakhstan

82. 1st PELAGOS Greek Hub for Blue Energy Workshop on spatial planning, Coastal Zone Management and social acceptance of MRE, Athens, 25 May 2018.
- Presentation on "Socio-economic benefits and acceptance of MRE projects"
81. Keynote Speaker, "Sustainable Development with the Co-operation of Local Communities in the area of Mainalon" Workshop organized by AE MAINALON, under the auspices of [SDSN Greece](#), 21 April 2018, Vitina, Greece
80. Inaugural Nexus Cluster Workshop, 16 March 2018, Athens.
79. European Climate Research Alliance (ECRA) Joint Collaborative Programs Workshop on "Changes in the Hydrological Cycle & High Impact Events and Climate Change", 9 March 2017, Brussels, Belgium.
78. GLOBAQUA Meeting: Managing the Effects of Multiple Stressors on Aquatic Ecosystems Under Water Scarcity, EC FP7 DG-Research Project (<http://globaqua-project.eu/>) 28-29 November 2016, ICRE8 Premises, Athens, Greece.
The scope of the meeting revolved around the integration of the work of the different work packages (WP2, WP8, WP9, WP10, WP11) with regards to different aspects of climate change scenarios that each team works on.
77. DAFNE kick off meeting: "Decision-Analytic Framework to explore the water-energy-food NExus in complex and transboundary water resources systems of fast growing developing countries", organized by ETH, 7-9 September 2016, Zurich, Switzerland.
76. GLOBAQUA (Managing the effects of multiple stressors on aquatic ecosystems with water scarcity) meeting of Steering Committee and Work Package Leaders, organized by IDAEA-CSIC, 20-21 September 2016, Barcelona, Spain.
75. SMIRES (Science and Management of Intermittent Rivers and Ephemeral Streams) Cross Working Group meeting, organized by IRSTEA, 12th September 2016, Lyon, France.
74. International Workshop on "Analytical tools to evaluate the impact of public policies on Sustainable Development Goals", organized by Fondazione Eni Enrico Mattei, 27th September 2016, Milan headquarter, Italy. Invited chair of session on "Sustainable Development in a changing world".
73. Lecture on "Sustainable Agriculture and Data Needs", ATHENA Research Center in cooperation with RDA Europe project organized Wheat Community Datathon. Athena Research and Innovation Center, Athens, Greece, July, 2016
72. 1st SMIRES Management Committee (MC) meeting - Brussels, March 11th 2016
71. PRIMA Expert Group Meeting - European Commission, Brussels, 8th March 2016

70. GLOBAQUA Project (Grant Agreement no 603629), 2nd General Assembly, Managing the effects of multiple stressors on aquatic ecosystems under water scarcity Collaborative Project 13-14 January 2016.

69. Invited Speaker to Workshop on David W. Pearce: '10 Years after Pearce', London School of Economics, London, UK, 10th September 2015.

68. GLOBAQUA Meeting: Managing the Effects of Multiple Stressors on Aquatic Ecosystems Under Water Scarcity, EC FP7 DG-Research Project (<http://globaqua-project.eu/>) 23-24 March 2015: Climate Change and Socio-Economic Scenarios Building, ICRE8 Premises, Athens, Greece.

67. 7th MERMAID meeting at Elsinor, Denmark, March 18-20th 2015
Innovative Multi-Purpose Off-Shore Platforms, Planning Design and Operation (MERMAID: <http://www.mermaidproject.eu>): FP7 project, EC, DG-Research Elsinor, Denmark Meeting, March 18-20th 2015.
Plenary Presentation by Prof. Koundouri: The Assessment Tool for Identifying Welfare Increasing Off-Shore Platforms.

66. Workshop on Methods and decision-making framework for a policy-driven Biodiversity in Crete
Organized by the Hellenic Centre for Marine Research (<http://www.hcmr.gr/en/>), Friday 20th March, Chamber of Commerce, Heraklion, Crete, Greece.
The aim of the workshop is to inform the general public, scientific and productive institutions and administration for innovative tools and new institutional frameworks that can contribute to policy making and decision-making environmental management, in light of promotion, enhancement and protection of biodiversity of Crete.
-Ecosystem Based Valuation of Biodiversity and Integration of Biodiversity Value in Policy Making

65. OpenAIREplus Final Review, 27th January 2015, Kostis Palamas, University of Athens, Athens, Greece.
- OpenAIRE Sustainability Study: The Financial Viability of the OpenAIRE European platform for Access to Scientific Information.

64. Jointed Meeting: Globaqua (Managing the Effects of Multiple Stressors on aquatic ecosystem under Water Scarcity) and MARS (Managing Aquatic Ecosystems and Water Resources under Multiple Stress), Instituto Superior Tecnico, Lisbon, Portugal,
- Identify the prevalence, interaction and linkages between stressors in multiple stressor situations: water as a central stressor

63. MERMAID Project Meeting and Workshop. 17-19, September, 2014, Bologna, Italy.
- Socio-Economics of Innovative Offshore Platforms: A Framework of Analysis and Empirical Applications

62. Greece and the European Union: Wind Energy and Renewable Energy Targets for 2030. Organized by the Greek Scientific Association for Wind Energy. Athens, 9 April, 2014.
- *The Ocean of Tomorrow: The Economics of Energy Production on Offshore Platforms.*
61. European Workshop on 'Socio-Economics of Innovative Offshore Platforms: A Framework of Analysis and Empirical Applications', Athens, March, 21, 2014. (Sponsor: European Commission, DG Research and Innovation)
- *Merging the Socio-economic Methodology of European Commission's Research on Multi-Use Off-shore Platform*
60. GLOBAQUA kick-off meeting, Barcelona, 18-19 Feb. 2014. Managing the Effects of Multiple Stressors on Aquatic Ecosystems Under Water Scarcity, European Commission
- *A Methodology for Implementing the Water Framework Directive in Water Scarce European Region via the Ecosystem Services Approach to Valuing Water Resources.*
59. Council Meeting of the European Association of Environmental and Resource Economics, Helsinki, 31 January, 2014.
58. OpenAIRE Workshop on Legal and Sustainability Issues, Vilnius, Lithuania, 5 November, 2013.
- *Preliminary Results of the OpenAIRE Sustainability Study*

57. GLOBAL IQ Project Workshop, Rome, 25-26 September, 2013.
56. THESUS FP7 Project Meeting, Varna, 15-17 Bulgaria, May, 2013.
- *Insurance Instruments for Extreme Climate Events*
- *Costs Benefits Analysis in Decisions Support Systems for Extreme Climate Events*
55. GENESIS FP7 Meeting, Krakow, 8-9 May, 2013.
- *Different Methodologies towards Valuing Groundwater Benefits: Results from GENESIS WP6*
54. MERMAID FP7 Project Meeting, Deltares, Delft, The Netherlands, 17-18, April, 2013.
- *Plenary on Costs Benefits Analysis of Off-Shore Platforms.*
53. European Association of Environmental and Resource Economics Council Meeting, Technical University of Istanbul, Istanbul, 1st, March, 2013.
52. MERMAID FP7 European Project Meeting, ITU, Istanbul, 24th-26thSeptember, 2012.
- *Plenary Session Lecture: Deriving Economic Values from Stakeholders Preferences.*

51. GENESIS FP6 European Integrated Project Meeting. Ferrara, Italy, 11-14 March, 2011.
- *A Choice Experiment and Distance Function Econometric Analysis Informing the Implementation of the WFD.*
50. GENESIS European Integrated Project Meeting. Zurich, Switzerland, 17 December, 2010.
- *A Choice Experiment and Distance Function Econometric Analysis Informing the Implementation of the WFD.*
49. GENESIS European Integrated Project Meeting. Valencia, Spain, 25-28 October, 2010.
- *Measuring the Value of Water in Agriculture under Climate Change Uncertainty: A Micro-econometric Analysis on Vosvozi case study.*
48. GENESIS European Integrated Project Meeting. Rokua, Finland, 28-30 October, 2010.
- *The Value of Scientific Information: A Choice Experiment.*
47. THESEUS: Innovative coastal technologies for safer European coasts in a changing climate. European Integrated Project Meeting. Leuven, Belgium, 2-4 June, 2010.
- *The Economic Valuation of the Effects of Floods: A Choice Experiment*
46. THESEUS: Innovative coastal technologies for safer European coasts in a changing climate. European Integrated Project Meeting. Venice, Italy, 9-11 December, 2009.
- *Natural Disasters and Insurance Markets*
45. Bank of Greece Workshop on Climate Change Economics in Greece. Bank of Greece, Athens, 16 March, 2010.
44. GENESIS European Integrated Project Meeting. Alexandroupolis, Thraki Palace Hotel and Conference Centre, March 22-26, 2010.
- *Cost-Benefit Analysis in the Implementation of the Water Framework Directive.*
43. European Workshop on Groundwater and dependent Ecosystems: New Scientific basis on climate change and land-use impacts for the update of the EU Groundwater Directive. 14-19 April, 2009, Istanbul, Turkey
- *Economic Methods in Revealing the anthropocentric Values of Groundwater and dependent Ecosystems*
42. Scientific Workshop on Southern European Seas: Assessing and Modelling the changes in Ecosystems. Palma de Mallorca, Spain, 1- 3, April, 2009.
- *An eco-systemic Choice Experiment on the Black Sea*
41. Scientific Workshop on Southern European Seas: Assessing and Modelling the changes in Ecosystems. Palma de Mallorca, Spain, 17-19 November, 2008.
- *Revealing tourists' preferences for biodiversity: A choice experiment in Crimea*
- *Valuation of natural marine ecosystems: An economic perspective.*

40. Invited Speaker, The Mediterranean Science Commission (CIESM - <http://www.ciesm.org>) Workshop on 'Economic Valuation of Natural Mediterranean Marine Ecosystems', Bodrum, Turkey, 22 - 25 October, 2008.
39. Invited Speaker, AQUASTRESS Meeting, Nafplio, Greece, 12-15 February, 2007.
38. European Workshop on Southern European Seas: Assessing and Modelling Ecosystem Changes Workshop, Anavissos, Greece, Hellenic Centre for Marine Research, 29 November-1 December, 2006.
37. North Atlantic Treaty Organization (NATO) Advanced Research Workshop (ARW) - Wastewater Reuse - Risk Assessment Decision-Making and Environmental Security. (Invited Speaker), Istanbul, Turkey, October 12-16, 2006.
36. Invited Speaker, AQUASTRESS Meeting, Brussels, 28-30 June, 2006.
35. Invited Speaker, AQUASTRESS Meeting, Cyprus, 26-27 June, 2006.
34. Invited Speaker, IASON (International Action for Sustainability of the Mediterranean and Black Sea Environment) Workshop, Anavissos, Greece, Hellenic Centre for Marine Research, February 5th, 2006.
- *The Economic Valuation of Marine Resources: Methods and techniques.*
33. Invited Speaker, EROLIMPACS Workshop on Impact Evaluation of Global Change on Freshwater Ecosystems, Athens, September 5-9, 2005.
- *Using a Choice Experiment to Account for Preference Heterogeneity in Wetland Attributes: The case of Cheimaditida wetland in Greece.*
32. Invited Speaker, Workshop on 'Coping with Water Stress in Europe', University of Hannover, May 24-25, 2005.
- *Economic Valuation Methods for Efficient Water Management.*
- *Economic Instruments for Integrated Resource Management in Arid and Semi-Arid Regions.*
31. Meeting on 'The Impact of REACH on the Environment and Human Health', European Commission, DG Environment, Brussels, September 17th, 2005.
- *The impact of REACH on the environment and human health: The Economic Aspects of the Valuation of the Impact, European Commission, DG Environment.*
30. AQUASTRESS: Mitigation of water stress through new approaches integrating management, technical, economic and institutional instruments, FP6 Global change and Ecosystems, EC Contract No 511231, Kick-off meeting, Rome, CNR & Frascati, February 2nd-4th, 2005.

29. IASON: International Action for Sustainability of the Mediterranean and Black Sea Environment, Kick-off meeting, Anavissos, Greece, Hellenic Centre for Marine Research, February 5th, 2005.
28. Invited Speaker, OECD Workshop on 'Evaluating Agri-environmental Policies', Paris, 6-8, December 2004.
27. Invited Speaker, Joint Workshop on 'Drought and Water Deficiency: from research to policy making', organized by the European Commission (DG Research and DG Environment) and France, and supported by the ARID Cluster, Palermo, Sicily, 6-9, October, 2004.
- *Valuing Water in a Watershed in the Absence of Market Prices.*
26. Invited Speaker, Science for Sustainable Marine Bioresources- Open Meeting 2 September 2004, Edinburgh.
25. World Bank GW-MATE six month progress meeting, Washington, 20-23, June, 2004.
- *The Economics of Arsenic Mitigation: A Methodology for Rapid Cost-Benefit Appraisal.*
24. Invited Speaker, World Bank Workshop on Groundwater Management, Bangon, 15-17, November, 2004.
- *The Economics of Groundwater Management.*
23. Invited Speaker and Working Group Leader in International Workshop on 'Valuing the Biological Diversity of Crops in a Development Context' with the support of BIOECON and FAO, March 29 – 30, 2004, Rome, Italy.
- *Econometric Techniques for Valuing Biodiversity.*
22. Invited Speaker, International Workshop on 'Valuing European Wetlands', March 7-12, Innsbruck, Austria.
- *The Contingent Valuation Methods for Estimating Monetary Values for Marginal Wetlands.*
- *The Land Use Allocation Model: Theory and Application to the UK.*
21. Invited Speaker in World Bank Workshop on 'Arsenic Contamination in South Asia and East Asia Regions – Extent and State-of-the-Art Knowledge', January 2003, World Bank Headquarters, Washington, USA.
- *The Economics of Arsenic Mitigation.*
20. Invited Speaker in Stakeholder European Workshop on 'Impact Assessment of REACH', November 21, 2003, European Commission, Brussels, Belgium.
- *The Social Cost of Chemicals: An Economic Evaluation of the EU Chemicals Directive.*
19. Invited Speaker for the 3rd MEDIS European Workshop 'Towards Sustainable Water Use on Mediterranean Islands: Addressing Conflicting Demands and Varying Hydrological, Social and Economic Conditions', October 30-31, 2003, Heraklion, Crete, Greece.
- *Economics of Water in the European Union: Problems, Principles and Policies.*

- ARID Cluster: Results and Future Research Priorities.

18. Invited Speaker for the 3rd WaterStrategyMan European Workshop on 'Developing Strategies for Regulating and Managing Water Resources and Demand in Water Deficient Regions', October 8-10, 2003, Paris, France.

- ARID Cluster: Results and Future Research Priorities.

17. Invited Speaker for the European Workshop on 'Advanced Project Interactions in Catchment Modelling', September 16-17, 2003, Amsterdam, The Netherlands.

<http://www.harmoni-ca.info/~pclaey/WorkDirHarmoniCA/WSCatchMod.html>

- *Integrated Water Management in Arid European Regions: Synergies among European Projects.*
