Very SHORT CV

English:

[Prof. Phoebe Koundouri](#) is a world-renowned environmental economics professor and global leader in sustainable development. She is widely recognized as a pioneer in innovative, human-centric, interdisciplinary systems for the sustainable interaction between nature, society, and the economy. Prof. Koundouri is listed in the most-cited women economists in the world, with 15 published books and more than 465 published peer reviewed scientific articles, book chapters and reports.

Prof. Koundouri is University Professor (the university's highest academic rank) at the School of Economics, Athens University of Economics and Business, an elected fellow of the World Academy of Art and Science ([World Academy of Art & Science](#)) and the President-elect of the European Association of Environmental and Natural Resource Economists for the period 2019-2025 (EAERE www.eaere.org -with more than 1200 scientific member institutions, from more than 75 different countries).

Prof. Koundouri is the Founder and Scientific Director of the Research Laboratory on Socio-Economic and Environmental Sustainability (ReSEES) <https://www.dept.aueb.gr/en/ReSEES> at Athens University of Economics and Business, focusing on interdisciplinary research on socio-economic and environmental systems. She is also Affiliated Professor at the ATHENA Research and Innovation Center, where she founded and scientifically directs the Sustainable Development Unit and the EIT Climate-KIC Hub Greece (www.athena-innovation.gr/el/eit-climate-kic-hub-greece) of the European Institute of Innovation and Technology (<https://eit.europa.eu/>), the latter focusing on accelerating technological and social innovations for use in the transition to a climate neutral economy.

Prof. Koundouri is also the co-Chair of United Nations Sustainable Development Network (UN SDSN) -Europe <https://www.unsdsn.org/>. The leadership of UN SDSN-Europe is constituted from existing National SDSN European networks and its mission is to serve as a science driven interface with European Commission policymaking. Prof. Koundouri is also the Chair of the

Scientific Advisory Board of the International Centre for Research on the Environment and the Economy (ICRE8) <http://icre8.eu/> and Chair of the Scientific Advisory Board of the European Forest Institute <https://efi.int/>

Prof. Koundouri is one of the Commissioners of the prestigious Lancet Commission on COVID-19 <https://covid19commission.org/commissioners> for which she co-chairs the "Jobs-based Green Recovery" Task Force. She leads the UN SDSN Senior Working Group on "Transformation Pathways for the implementation of EGD and the SDGs", co-leads the UN SDSN Sustainable Shipping and Ports and Shipping Initiative, and the UN SDSN 4-seas (Mediterranean, Black, Caspian and Aral Seas) Blue Growth Initiative. She is a member of the CEPR (Center for Economic Policy Research) Network (RPN) on Climate Change <https://cepr.org/content/cepr-rpn-climate-change-researchers>, member of the Priministerial Committee for the Recovery and 10-year Development Plan of Greece, the National Climate Change Committee of the Greece, as well as chair or member of numerous European and International Scientific, Research and Policy Boards and Committees.

Prof. Koundouri acts as a scientific advisor to the European Commission, World Bank, European Bank of Reconstruction and Development, OECD, UN, NATO, WHO, World Water Council and various other Multilateral Institutions, as well as numerous national and international foundations and organizations. She also advises national governments across the world. Prof. Koundouri is editorial board member of more than 20 prestigious scientific journals.

Since 1997, she has coordinated more than 100 interdisciplinary research projects, in all five continents, focused on combinations of Sustainable Development, Climate Change Mitigation and Adaptation, Behavioural Economics and Econometrics, Economics of Wellbeing and Happiness, Natural Resource-Food-Energy Nexus, Smart Water Systems, Ecosystem Services Valuation, Blue Growth, Circular Economy, Systems Innovation, Innovation Acceleration and Commercialization, and has attracted significant competitive research funding. Prof. Koundouri and her large interdisciplinary team (more than 200 researchers) have produced research and policy results that have contributed to accelerating research and innovation for the enablement of Sustainable Development and has contributed to shaping European and National policies.

Over the last two decades, Professor Koundouri has given keynote and public lectures, at high level forums all over the world, and received various prizes for academic excellence, including best paper awards, highest policy impact paper award, European Research project award, etc. as well as the prestigious European Research Council (ERC) Synergy Grant (2020-2027) <http://unsdsn.gr/to-professor-phoebe-koundouri-athens-university-of>, which focuses on design of the next generation of urban water systems, via the combination of water science, systems and control theory, economics, decision-science and machine learning. This is the biggest research project in the world at the moment working on urban water systems.

Prof. Koundouri was born and raised in Cyprus. During the period 1991-2006, she studied and held academic positions in the UK. She holds a PhD and MPhil in Economics and Econometrics from the University of Cambridge. For her studies she received a full scholarship from the University of Cambridge and the Cambridge Commonwealth Trust. She then held academic positions at the University of Cambridge, University College London, University of Reading, London School of Economics. Since 2006 she lives in Greece (Athens) with her husband, Prof. Nikitas Pittis, and their three daughters: Chrysilia, Billie and Athena.

Η καθηγήτρια Φοίβη Κουντούρη είναι επίσης ιδρύτρια και Επιστημονική Διευθύντρια του Ερευνητικού Εργαστηρίου Research Laboratory on Socio-Economic and Environmental Sustainability ([ReSEES](https://www.dept.aueb.gr/en/ReSEES) <https://www.dept.aueb.gr/en/ReSEES>) στο Οικονομικό Πανεπιστήμιο Αθηνών, εστιάζοντας στη διεπιστημονική έρευνα σε κοινωνικο-οικονομικά και περιβαλλοντικά συστήματα. Είναι επίσης συνεργάτης καθηγήτρια στο Κέντρο Έρευνας και Καινοτομίας «Αθηνά» <https://www.athena-innovation.gr/en/home> όπου ίδρυσε και διευθύνει επιστημονικά τη Μονάδα Αειφόρου Ανάπτυξης (M.AA) <https://www.athena-innovation.gr/en> και το [EIT Climate-KIC Hub Greece](#) (www.athena-innovation.gr/el/eit-climate-kic-hub-greece) του [Ευρωπαϊκού Ινστιτούτου Καινοτομίας και Τεχνολογίας](#) (<https://eit.europa.eu/>) εστιάζοντας στην επιτάχυνση των τεχνολογικών και κοινωνικών καινοτομιών για τη μετάβαση σε μια ουδέτερη από το κλίμα οικονομία.

Η καθηγήτρια Φοίβη Κουντούρη είναι επίσης συμπρόεδρος του Δικτύου Αειφόρου Ανάπτυξης των Ηνωμένων Εθνών - Ευρώπης [UN SDSN](#) (<https://www.unsdsn.org/eu>). Η ηγεσία του UN SDSN-Europe αποτελείται από τα υπάρχοντα εθνικά δίκτυα SDSN ανά την Ευρώπη και αποστολή του είναι να χρησιμεύσει ως επιστημονική διεπαφή με τη χάραξη πολιτικής της Ευρωπαϊκής Επιτροπής. Η καθηγήτρια Κουντούρη είναι πρόεδρος του [Διεθνούς Κέντρου Ερευνών για το Περιβάλλον και την Οικονομία ICRE8](#) (<http://icre8.eu/>) και πρόεδρος του επιστημονικού συμβουλευτικού συμβουλίου του [Ευρωπαϊκού Δασικού Ινστιτούτου](#) (<https://efi.int/>).

Η καθηγήτρια Κουντούρη είναι μία από τους Επιτρόπους της διεθνούς κύρους Επιτροπής Lancet για τον COVID-19 <https://covid19commission.org/commissioners> για την οποία συν-προεδρεύει την «Ειδική ομάδα για την ανάκτηση πράσινων θέσεων εργασίας» ("Jobs-based Green Recovery Task Force"). Ηγείται της Ομάδας Ανώτερης Εργασίας του Δικτύου Βιώσιμης Ανάπτυξης των Ηνωμένων Εθνών (UN SDSN) για τους « Τρόπους μετασχηματισμού για την υλοποίηση της Ευρωπαϊκής Πράσινης Συμφωνίας και των Στόχων Βιώσιμης Ανάπτυξης», συν-ηγείται της Πρωτοβουλίας Βιώσιμης Ναυτιλίας και Λιμένων του UN SDSN, και της Πρωτοβουλίας 4-seas Blue Growth (UN SDSN). Είναι επίσης μέλος του δικτύου CEPR (Κέντρο Ευρωπαϊκής και Πολιτικής Έρευνας) (RPN) για Κλιματική Αλλαγή <https://cepr.org/content/cepr-rpn-climate-change-researchers>, είναι μέλος της Πρωθυπουργικής Επιτροπής για το δεκαετές αναπτυξιακό πρόγραμμα της Ελλάδας, καθώς και της επιτροπής για την Κλιματική Αλλαγή του Ελληνικού Υπουργείου Περιβάλλοντος και

Ενέργειας, καθώς και σε πολλές ευρωπαϊκές και διεθνείς επιστημονικές, ερευνητικές και πολιτικές επιτροπές.

Η καθηγήτρια Κουντούρη ενεργεί ως σύμβουλος στην European Commission, World Bank, European Investment Bank, European Bank of Reconstruction and Development, OECD, UN, NATO, WHO και σε πολλά εθνικά και διεθνή ιδρύματα και οργανισμούς, καθώς και εθνικές κυβερνήσεις σε όλο τον κόσμο. Επίσης η καθηγήτρια Κουντούρη είναι μέλος του Συντακτικού Συμβουλίου σε περισσότερα από 20 επιστημονικά περιοδικά διεθνούς κύρους.

Από το 1997, έχει συντονίσει περισσότερα από 100 διεπιστημονικά προγράμματα έρευνας, και στις πέντε ηπείρους, επικεντρωμένα σε τομείς όπως αειφόρος ανάπτυξη, μείωση και προσαρμογή στην κλιματική αλλαγή, οικονομικά της συμπεριφοράς και οικονομετρία, οικονομικά της ευημερείας και της ευτυχίας, Nexus φυσικών πόρων-τροφής -ενέργειας, Έξυπνα Συστήματα Νερού, αποτίμηση υπηρεσιών οικοσυστήματος, μπλε ανάπτυξη, κυκλική οικονομία, καινοτομία συστημάτων, καινοτομία, επιτάχυνση και εμπορευματοποίηση, και έχει προσελκύσει σημαντική ανταγωνιστική ερευνητική χρηματοδότηση. Η καθηγήτρια Κουντούρη και η μεγάλη διεπιστημονική της ομάδα (περισσότεροι από 200 ερευνητές) παρήγαγαν αποτελέσματα έρευνας και πολιτικής που συνέβαλαν στην επιτάχυνση της έρευνας και της καινοτομίας για την ενεργοποίηση της αειφόρου ανάπτυξης και συνέβαλαν στη διαμόρφωση ευρωπαϊκών και εθνικών πολιτικών.

Τις τελευταίες δύο δεκαετίες, η Καθ. Κουντούρη έχει δώσει ομιλίες και διαλέξεις σε διεθνή φόρουμ υψηλού επιπέδου σε όλο τον κόσμο και έχει λάβει βραβεία ακαδημαϊκής αριστείας συμπεριλαμβανομένων best paper awards, paper με τη μεγαλύτερη επίδραση στη διαμόρφωση πολιτικής, Βραβείο ευρωπαϊκού ερευνητικού έργου κ.λπ., της καθώς επίσης και την ανταγωνιστική επιχορήγηση Synergy του Ευρωπαϊκού Συμβουλίου Έρευνας (ERC) (2020-2027) <http://www.unsdsn.gr/to-professor-phoebe-koundouri-athens-university-of> , η οποία επικεντρώνεται στο σχεδιασμό αστικών συστημάτων νερού επόμενης γενιάς, μέσω του συνδυασμού της επιστήμης του νερού, των συστημάτων και της θεωρίας ελέγχου, των οικονομικών, της επιστήμης αποφάσεων και της μηχανικής μάθησης. Αυτό είναι το μεγαλύτερο ερευνητικό έργο στον κόσμο αυτή τη στιγμή που ασχολείται με συστήματα αστικών υδάτων.

Πριν από την εκλογή της στο Οικονομικό Πανεπιστήμιο Αθηνών, η καθηγήτρια Κουντούρη κατείχε ακαδημαϊκές θέσεις στο Πανεπιστήμιο του Cambridge, στο University College London, στο University of Reading και στο London School of Economics. Η καθηγήτρια Κουντούρη κατέχει διδακτορικό και μεταπτυχιακό στην Οικονομική και Οικονομετρία από το Πανεπιστήμιο του Cambridge (Ηνωμένο Βασίλειο). Για τις σπουδές της έλαβε πλήρη υποτροφία από το Πανεπιστήμιο του Cambridge και το Cambridge Commonwealth Trust.

Η καθηγήτρια Κουντούρη γεννήθηκε στην Κύπρο. Είναι παντρεμένη με τον καθηγητή Νικήτα Πιττή και έχουν τρεις κόρες: Χρυσήλια, Μπίλλη και Αθηνά.

SHORT CV

[Prof. Phoebe Koundouri](#) is University Professor (the university's highest academic rank) at the School of Economics, Athens University of Economics and Business, a fellow of the World Academy of Art and Science ([World Academy of Art & Science](#)) and the Elected President of the European Association of Environmental and Natural Resource Economists (EAERE www.eaere.org) -with more than 1200 scientific member institutions, from more than 75 different countries. Prof. Koundouri is listed in the most-cited women economists in the world, with 15 published books and more than 465 published peer reviewed scientific papers, book chapters and reports.

Prof. Koundouri is economist and econometrician focused on sustainable development. Her work focuses on developing innovative, human-centric, interdisciplinary systems for the sustainable interaction between nature, society, and the economy. Central to my research is the study of human decision-making processes over time and under uncertainty, and the understanding of how these processes translate into value for goods and services, which has important economic consequences. She is particularly interested in understanding the determinants of the total economic value (including use and passive values) of public goods and services, as well as the values of global externalities like climate change. Given that the value of public goods is not documented in any markets, her work focuses on inferring this value using experimental approaches. Moreover, time and uncertainty are correlated, while uncertainty often takes the form of ambiguity (when probabilities of uncertain events are unknown) so she is working on a unifying framework, which must be derived from a deeper understanding of the structure of human decision processes and the need to have a framework for short and long run decisions.

Prof. Koundouri holds a PhD and MPhil in Economics and Econometrics from the University of Cambridge (UK). For her studies she received a full scholarship from the University of Cambridge and the Cambridge Commonwealth Trust.

Prof. Phoebe Koundouri is the Founder and Scientific Director of the Research Laboratory on Socio-Economic and Environmental Sustainability (ReSEES)

<https://www.dept.aueb.gr/en/ReSEES> at Athens University of Economics and Business. She is also Affiliated Professor at the ATHENA Research and Innovation Center (Greece), where she founded and directs the Sustainable Development Unit (SD.U) and the EIT Climate-KIC Hub Greece (www.athena-innovation.gr/el/eit-climate-kic-hub-greece) of the European Institute of Innovation and Technology, focusing on accelerating innovations for the transition to a climate neutral economy. Committees. Since 1997, she has coordinated more than 100 interdisciplinary research projects and has attracted significant competitive research funding. Professor Koundouri and her large interdisciplinary team have produced research and policy results that have contributed to accelerating the research commercialization for the sustainability transition in Europe as well as contributed to shaping European policies. Over the last two decades, Professor Koundouri has given keynote and public lectures all over the world and received various prizes for academic excellence, including the prestigious European Research Council (ERC) Synergy Grant (2021-2027) <http://unsdsn.gr/to-professor-phoebe-koundouri-athens-university-of>

Ranked in the world top IDEAS Female Economists worldwide, Professor Koundouri is a highly cited academic author, with 15 edited books and monographs, and more than 250 scientific papers in peer reviewed journals and edited volumes in the following fields of research: Economics and Econometrics¹, Mathematics, Social Sciences, Environmental Sciences, Geosciences, Multidisciplinary. Her work focuses, mainly but not exclusively, on microeconomic and econometric modelling and analysis, with applications to natural resources and climate change, sustainable development and the sustainability transition, sustainable finance, non-market valuation, long-run costs benefit analysis and relevant discounting issues, as well as interdisciplinary approaches to natural resources management, and more recently philosophy of science. Central to Professor Koundouri's research is the concept of the 'total economic value of public goods' and in particular the value humans derive from natural resources and their ecosystem services, within a framework of uncertainty and ambiguity. Her main research goal is to refine the theoretical models and empirical methods used in the field of natural resources economics, towards: (a) better understanding of the concept and determinants of the total economic value of ecosystem goods and services, (b) more accurate modelling of this value, (c) more robust estimation of this value, (d) more efficient integration of this value in interdisciplinary resource management and policy-making, (5) financing the conservation of this value, while incentivizing the development of technological and social innovations that integrate the results of this research, and accelerating these innovations in the market.

Professor Koundouri is co-editor of the journal of Environmental and Resource Economics, associate-editor of the Review of Environmental Economics and Policy, the official journals of the European Association of Environmental and Resource Economists and guest editor to Special Issue "The Transition to Sustainable Shipping and Ports". She is also member of the Scientific Advisory Board of "Economia Agro-Alimentare/Food Economy", the journal published by FrancoAngeli on behalf of SIEA, the Italian Society of Agri-food Economics <https://www.economiaagroalimentare.it/>

She is (was) also associate editor and/or editorial board member in more than 30 academic journals (including Water Resources and Economics, Environment and Development Economics, Economics-ejournal).

She is expert in the following working groups of EESC: a) ECO/505 – consultation on EGD, b) ECO/504 – consultation on fund for fair transition and amendments to the Regulation on common provisions, c) ECO/500 – consultation on taxation in the cooperative economy.

¹ Areas of research as per EconLit: Environmental, Natural Resources and Agricultural Economics and Econometrics; Economic Sustainability, Cost-Benefit Analysis and Discounting; Non-market Valuation; Agricultural Economics and Finance; Interdisciplinary Approaches to Natural Resources Management and Policy; Econometric Methods; Philosophy of science.

She is member of the steering committee of Nexus Project Cluster, a group of independent research initiatives <http://www.nexuscluster.eu/>.

Between 1991 and 2006, while based in the UK, she held fixed-term and tenure track academic positions at the University of Cambridge, University College London, University of Reading. In 2006 she relocated to Greece, where she is now Professor at the Athens University of Economics and Business. She was also a visiting Research Fellow at the Centre for Climate Change Economics and Policy, London School of Economics (2014-2018), while she held numerous visiting positions worldwide.

Professor Koundouri is an advisor to the European Commission, World Bank, EIB, EBRD, OECD, UN, NATO, WHO, numerous national and international foundations and organizations, as well as national governments. Since 1997, she has coordinated more than 77 interdisciplinary research projects on Sustainability issues, and together with her team, has attracted significant competitive research funding. She has supervised many PhD students and co-established a master course in Energy Economics and Law at the Athens University of Economics and Business. She is teaching at this MS course Environment and Health, at National and Kapodistrian University of Athens.

She has organized more than 50 prestigious international conferences, workshops, summer schools and training courses, including the annual conference of the European Association of Environmental and Resource Economists in 2017, with more than 1000 participants. She has co-established the annual Sustainability Summit of South East Europe and the Mediterranean, an event co-organized by UN SDSN, EIT Climate KIC and The Economist Events. The Summit has developed into an annual meeting of high profile academics, technology developers, politicians, policy makers and civil society stakeholders, convening networks of expertise, mobilizing resources and influencing regional policy for the urgently needed sustainability transitions.

Professor Koundouri and the large interdisciplinary team of researchers she directs (under the cluster of ReSEES, EIT Climate-KIC and UN SDSN) has produced research and policy results that have contributed to shaping European policies with regards to integrated and holistic management of the interaction between nature and people. Over the last two decades, Professor Koundouri has given keynote and public lectures all over the world, and received scholarships and prizes for academic excellence from various academic institutions and associations.

Professor Koundouri was born in Cyprus in 1974 and is married to Prof. Nikitas Pittis. They are based in Athens (Greece) where they live with their three daughters, Chrysilia, Billie and Athena.

In July 2019, Prof. Phoebe Koundouri was elected President of the European Association of Environmental and Resource Economists <https://www.eaere.org/> with 53.51% of votes.

EAERE is the oldest, largest and most prestigious Scientific Association of Environmental and Resource Economists. Founded in 1990, EAERE has more than 1200 members in over 60 countries from Europe and beyond, from academic and research institutions, international organisations, the public sector, and the business world. Membership is open to individuals who by their profession, training and/or function are involved in environmental, climate and resource economics as a science, and to institutions operating in fields connected with the aims of the Association.

Prof. Phoebe Koundouri's EAERE Presidential Candidate Note

In October 2018 the IPCC special report on “Global Warming of 1.5 °C” warned that there are only a dozen years for global warming to be kept to a maximum of 1.5C, beyond which, even half a degree will significantly worsen the risks of drought, floods, extreme heat and poverty for hundreds of millions of people around the globe. Urgent and unprecedented changes are needed to reach the target. EAERE should and must play a central role in the needed sustainability transition!

I believe that EAERE members research outputs and policy initiatives can have an instrumental role in creating a prosperous, inclusive, climate-resilient society with a circular, zero-carbon economy. Why? Well, EAERE not only boasts members which include the majority of the most influential scientists in the field, but it also organizes the most prestigious annual international conference in the field, bringing together in fruitful discussion hundreds of research and policy institutions. In addition, its official journals, ERE and REEP, shape a significant part of the relevant research agenda. Moreover, EAERE has strong research and policy related dissemination impact in more than 30 countries, via national representatives, while it works on re-enforcing its policy role, through the newly developed “Policy Outreach Committee”.

I am truly and deeply honored to be nominated for EAERE presidency, and I sincerely thank the nominating committee and the council for their trust. If I am elected, I believe I can contribute to continuing and advancing the already excellent work carried out by our association.

Let me first quickly say that I am currently ERE co-editor and REEP associate-editor, have served as EAERE vice-president for 2 years and council member for 4 years, EAERE newsletter editor for 4 years, president of the EAERE fellow-nomination committee, member of president-nomination committee, member of the policy outreach committee, member of the annual conference scientific committee and country representative for more than 15 years, and was the chair of both the scientific and local organizing committees of the 2017 EAERE conference. The last 20 years, the association has been my academic home!

If I am elected, I will do my best to serve the association along the following 4 directions, by formulating respective consultation groups composed by EAERE members and key members from corresponding communities, as well as devoting lots of energy to leveraging the needed grants smartly and efficiently.

1. I will encourage EAERE to continue to seek to meet the highest expectations of scientific merit, in a way that will increase its visibility and influence amongst the relevant associations on other continents, as well as in the general economics profession. This can be achieved through inter-association merit-based awards, fellowships and joint academic events/projects/special issues etc., which can be stimulated via capitalizing on our members' academic networks, while mobilizing grants from selected funding organizations, which will support these activities. Such visibility will also help in attracting international sponsorships earmarked for lowering the participation fee for our annual conference.

2. I will encourage EAERE to embrace more explicitly interdisciplinary scientific work. Almost all applied problems are interdisciplinary, hence scientific solutions need to be interdisciplinary and support socio-economic and environmental sustainability. That said, interdisciplinary work is difficult and expensive. Given my 20 years of experience and passion for interdisciplinary work, I can bring the association closer to the relevant academic community and funding sources. Given my 20 years of collaboration with DG Research and Innovation, I will invest time in increasing the influence of the association in formulating the priorities of research and innovation policy at the European Commission.

3. I will put a lot of effort in bringing our academic community closer to the innovation community that catalyzes and nurtures innovation, from large corporations, research institutes and public bodies, through to start-ups and individual entrepreneurs. Technological and social innovations ought to integrate our scientific results, while their acceleration in the market should be supported by our expertise in market, financial and economic sustainability. Such a strategy will encourage fresh new thinking from beyond the mainstream and I drive work towards achieving this aim in my capacity as Director of EIT Climate KIC Greece (and member of EIT Climate KIC Europe, www.climate-kic.org).

4. I will continue to reinforce EAERE's role in being an influential bridge between the academic community and the other stakeholders that are instrumental in the implementation of the sustainability transition: politicians, policy makers, businesses and the civil society. My role as co-chair of UN SDSN Greece (and member of UN SDSN Global, unsdsn.org, unsdsn.gr) places me in a unique position to facilitate this work.

I believe that the above strategy will enhance EAERE's role in the urgently needed sustainability transition.

Looking forward to seeing you all in Manchester!

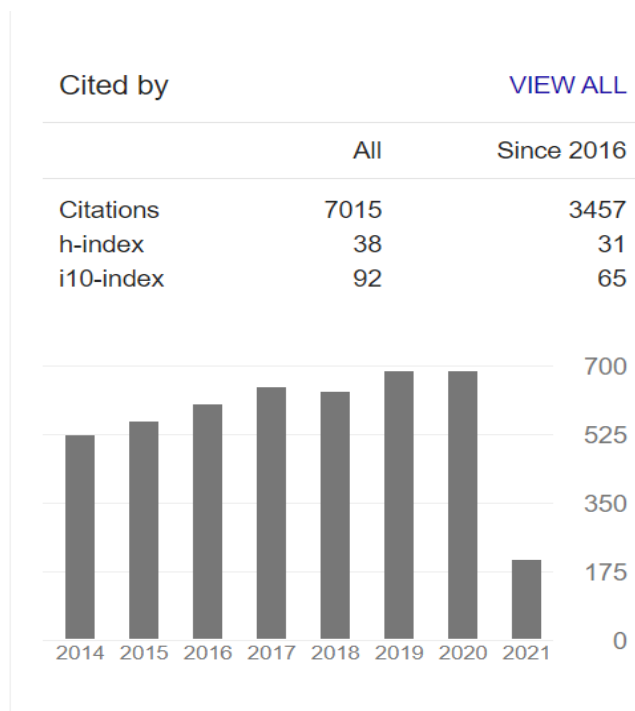

Phoebe.

RESEARCH THEME & MAJOR FIELDS OF INTEREST

Central to my research is the concept of 'total economic value of public goods' and in particular the value humans derive from natural resources/ environment/ecosystem. My main research goal is to produce a structured and methodologically sound approach towards capturing the total economic value of public goods, demonstrating this approach to policy makers and achieve its integration in natural resource economic policy. In my view this is the only sustainable way forward for our environment, economy and society.

In doing so I am working on refining the theoretical models and empirical methods used in the field of natural resource, ecological & agricultural economics, towards: (a) better understanding of the concept and determinants of the total economic value of ecosystem goods and services under uncertainty, (b) more accurate modelling of this value, (c) more robust estimation of this value, (d) more efficient integration of this value in long-run cost benefit analysis, interdisciplinary resource management and policy-making.

More technically, I work towards: (a) improving the real world relevance of the mathematical (theoretical) models focused on capturing the total economic value of ecosystem goods and services (mainly by incorporating dynamic and intergenerational, spatial, information creation and diffusion, risk and uncertainty elements, informed not only by economics but also by other relevant disciplines), (b) improving the link between theoretical and empirical models on this total economic value, by homogenising their mathematical and statistical underpinnings and then refining the models, (c) improving the econometric applications of the empirical models to real world data, (d) incorporate the derived empirical estimates in the implementation of natural resource cost-benefit analysis and development of management policy.

I have applied refined theoretical and empirical models to the economic analysis of various natural resources (inland - groundwater and surface-, coastal and marine waters, renewable energy, land, forest, biodiversity, etc.) and a number of economics sectors (agriculture, industry, services, etc.) in quite a few case studies all over the world. My refined models, methods and estimates, have been cited and used by many colleagues in economics and interdisciplinary research, and have influenced policy-making mainly in the EU, but also the US and Asia. Lately some of my models and methods have been incorporated into decision support e-tools for natural resource management and cost-benefit analysis.

In a nutshell, ***I aspire that my contribution to the field of environmental economics is mainly methodological*** and aims at further integrating: (a) the natural resource mathematical modelling literature, (b) the non-market valuation (econometric) literature, (c) the market valuation (econometric) literature, towards making the concept of total economic value the driving force of natural resource economic policy, while acknowledging the need to work in an interdisciplinary framework.

Finally, in my capacity as EIT Climate KIC HUB Greece direct, I am actively involved in incentivizing and accelerating in the market, technological and social innovations that integrate the results of sustainability research. In particular at EIT Climate KIC, we convene networks of expertise, leverage grants smartly and efficiently, develop people and capacity and catalyze innovation that is urgently needed for the worldwide sustainability transition.

Below a list of areas I work in, using Economic Literature and Natural Sciences traditional categorizations:

1. Agricultural Economics: Micro Analysis of Farm Firms, Farm Households, and Farm Input Markets; Agricultural Finance; Land Ownership and Tenure; Land Use; Irrigation; Agriculture and Environment; R&D and Agricultural Technology; Biofuels; Agricultural Extension Services; Agricultural Policy; Food Policy.

2. Natural Resources (Renewable and Non-Renewable) Economics and Econometrics:

Resources: Inland water (surface and groundwater) resources; Fisheries, aquaculture and oceans resources (hydrocarbons, hydrogen, wind and wave energy); Forest resources; Energy (renewable) sources; Biodiversity and ecosystem service (Ecological Economics); Land use; Recreational aspects of natural resources; Air.

Pollution: Air Pollution; Water Pollution; Noise; Waste.

Climate Change (and intergenerational issues).

3. Long-Run Discounting and Cost-Benefit Analysis, Economic Sustainability.

4. Uncertainty, Risk and Irreversibility, Natural Disasters.

5. Benefit Valuation: Choice Modeling, Contingent Valuation, Hedonic Pricing, Travel Cost, Benefit Transfer, Cost-Benefit Analysis.

6. Behavioral and Social Aspects: Experimental Economics, Consumption and Demand, Distributional Aspects.

7. Production and the Environment: Production/Cost Function; Micro-Econometrics, Production Technology Adoption and Diffusion; Processes, Production Under Uncertainty and Risk Preference Estimation.

8. Regulation and Instruments: Price-based MBI, Quantity-based MBI, Voluntary Approaches, Externalities, Other Market Failures.

9. Game Theory and the Environment.

10. Health and the Environment.

11. Interdisciplinary Approaches to Natural Resources Management and Policy.

12. Econometric Methods: Time Series, Cross-Section, Panel, Parametric/Non-parametric.

13. Philosophy of science applied to economics (general), econometrics and environmental and resource economics.

HONOURS AND AWARDS

- 2021 Expert to the rapporteurs for the opinion of the European Economic and Social Committee on New EC Climate Adaptation Strategy.
- 2021 **Member of RIS Policy Working Group.**
This activity is part of a broad collaboration setting that include Climate-KIC collaboration agreement with JRC for 5 years and a clearer and more active interface role for RIS programme between the portfolio of activities implemented in RIS countries and the key units at DG EAC, DG REGIO and DG RTD
- 2021 **Member of the Scientific Committee (SC) for the Society for Benefit Cost-Analysis (SBCA) European Conference**

GW-MATE co-authored briefing notes

³ As part of the Bank-Netherlands Water Partnership Program, and with complementary support from the British Department for International Development (DFID), the World Bank has established the Groundwater Management Advisory Team (GWMATE). GWMATE is a core group of experienced specialists in the multidisciplinary and multifaceted area of groundwater management. They act globally to develop capacity and capability in groundwater resource management and quality protection. The strategy is to use the World Bank project activities, together with the Global Water Partnership (GWP) regional networks, as the points of entry to achieve this goal.

The [Sustainable Development Unit of ATHENA RC](#) and [EIT Climate KIC Hub Greece](#), led by [Professor Phoebe Koundouri](#) (Athens University of Economics and Business), in collaboration with [EIT Climate-KIC](#) and [Cyprus University of Technology](#) and a large team of European port authorities, shipping companies and associations, and VCs from all over Europe, is launching the ClimAccelerator focused on Maritime Industry. ClimAccelerator will work towards the adoption of an ambitious roadmap to reduce maritime greenhouse gas emissions by 50% (2008 base year) as agreed by IMO. The accelerator co-funded by EIT Climate-KIC, the EU's leading climate innovation initiative, through the Net-Zero Emission Resilient Maritime Hubs project. The accelerator is also funded by VC Funds, Shipping Companies and Associations. The ultimate goal is to create a world-class maritime accelerator, which will support and develop 30-40 start-ups per year and provide solutions to the challenges of carbon emission exemption, locally and globally. 85. IntelComp: A Competitive Intelligence Cloud/HPC Platform for AI-based STI Policy Making

IntelComp sets out to build an innovative Cloud Platform that will offer Artificial Intelligence based services to public administrators and policy makers across Europe for data- and evidence-driven policy design and implementation in the field of Science, Technology and Innovation (STI) policy. Large STI datasets are processed on High Performance Computing (HPC) environment part of the European Open Science Cloud (EOSC) initiative. Public administration at all geographical and organizational levels, STI stakeholders and civil society produce a great amount of dynamic, multilingual and heterogeneous data (i.e. national STI strategies, plans and work programmes, calls, projects, reports, scientific publications, patents, dissemination articles, etc.), so understanding and analyzing this data is crucial for evidence-based policy making. The objective of IntelComp is to deliver a platform that provides tools for assisting the whole spectrum of STI policy, i.e., agenda setting, modeling design, implementation, monitoring and evaluation. It will do so by involving multi-disciplinary teams to co-develop innovative analytics services, Natural Language Processing pipelines and Artificial Intelligence workflows and by exploiting open data, services and computational resources from the EOSC, HPC environments and federated distributed operations at the European

Union, national and regional level. It will ensure a cooperative environment where different actors can visualize, interact and analyze information. Through co-creation, IntelComp will adopt a living labs approach and will engage public policy makers, academia, industry, SMEs, local actors, civil society and citizens to explore, experiment with and evaluate STI policies at all stages. IntelComp will be targeting domains aligned with the European Agenda and the Horizon Europe Missions: Artificial Intelligence, Climate Change and Health. (ATHENA RC),

84. [H2020 DOORS](#). DOORS will bring the four pillars of the SRIA into reality, turning the challenges into opportunities for a highly valued Black Sea. It will harmonise research and provide the infrastructure to better understand the Black Sea, particular ecosystem characteristics, develop the framework to support Blue Growth and early development of start-ups, and provide evidence to inform policy and behavioural change. To reach its ambitious objectives, the project team will work closely with stakeholders from the start to develop an open research system and establish a framework to support continuous stakeholder dialogue. DOORS will implement three Work Programmes: a System of Systems to harmonise approaches and provide an accessible data repository, a Blue Growth Accelerator to support enterprise, and Knowledge Transfer and Training to share best practice and build capacity.

83. [H2020 BRIDGE-BS](#). BRIDGE aims to understand how the multi-stressors impact Black Sea ecosystems and alter the sustainability of ecosystem services provided to society. Building on a unique concept linking oceanographic dynamics to resilience, ecosystem services, multi-stressors and innovation in Blue Growth; BRIDGE will deploy an interdisciplinary approach building on past and ongoing initiatives and using stakeholder knowledge. Physical, biogeochemical and ecological processes, as well as the socioeconomic dimension of the Black Sea will be assessed, mapped and modelled to establish ecosystem status and the role of multi-stressors on its resilience and potential tipping points. Beyond predicting the future states, tools will be developed for policymaking, contributing to our ability to sustain the ecosystem services. The resilient ecosystems of the Black Sea will be evaluated as a booster of innovation in the region. Further, BRIDGE will undertake an extensive outreach and capacity building campaign involving joint Masters programs, PhD student mobility and outreach integrating science, innovation and art. Working closely the Black Sea CONNECT CSA, BRIDGE will generate major impacts such as providing the harmonized data and facilities needed for addressing multistressors towards the vision of a healthy and resilient Black Sea by 2030, as well as contributing to major EU policies (e.g., the Green Deal, MSFD, CFP) and UN SDGs (2, 13 and 14). BRIDGE's outputs will demonstrate how a resilient Black Sea ecosystem can be sustained while supporting the Blue Growth. By the end of BRIDGE, a community of young researchers and innovators will emerge with new start-ups that incubate in a culture of scientific excellence.

82. [H2020 SEAWise](#). The SEAWise overall objective is to provide a fully operational approach for European Ecosystem Based Fisheries Management based on persistent networks and co- designed innovation. SEAWise overcomes the four major challenges by addressing four specific objectives using state of the art risk assessment methodology:

- 1) Build a network of stakeholders, advisory bodies, decision makers and scientists to co-design key priorities and approaches to EBFM and to ensure SEAwisE's continued impact long after the project period.
- 2) Assemble a new knowledge base on European fisheries interactions with social and ecological systems that integrates scientist and stakeholder experience based knowledge.
- 3) Develop predictive models of fisheries interactions with social and ecological systems to evaluate, select and implement EBFM strategies across Europe accounting for changes in the environment and use of marine space.
- 4) Provide ready-for-uptake advice for EBFM for Mediterranean, western and northern European waters.

38. TROPOS (FP 7): Modular Multi-use Deep Water Offshore Platform Harnessing and Servicing Mediterranean, Subtropical and Tropical Marine and Maritime Resources. TROPOS is a European collaborative project funded by the European Commission under the 7th Framework Programme for Research and Development, more specifically under the 'Ocean of Tomorrow' call OCEAN 2011.1 – Multi-use offshore platforms. The TROPOS Project aims at developing a floating modular multi-use platform system for use in deep waters, with an initial geographic focus on the Mediterranean, Tropical and Sub-Tropical regions, but designed to be flexible enough so as to not be limited in geographic scope. TROPOS gathers 19 partners from 9 countries (Spain, the United Kingdom, Germany, Portugal, France, Norway, Denmark, Greece and Taiwan), under the coordination of PLOCAN (Spain - www.plocan.eu/es).

Budget: 6 726 623,82 euro.

Coordinator: PLOCAN, Spain

Project Website: www.troposplatform.eu

MERMAID, H2OCEAN and TROPOS projects also aim to contribute to European Commission's **Blue Growth** long-term strategy, supporting sustainable growth in the marine and maritime sectors as a whole.

37. H2OCEAN: www.h2ocean-project.eu , budget: 6 million euro

H2OCEAN – Development of a Wind-Wave Power Open-Sea Platform Equipped for Hydrogen Generation with Support for Multiple Users of Energy – aims at developing an economically and environmentally sustainable multi-use open-sea platform on which wind and wave power will be harvested. Part of the generated energy will be used for multiple applications on-site, including the conversion of energy into hydrogen that can be stored and shipped to shore, and a multi-trophic aquaculture farm. Launched in January 2012 for 2 years, H2OCEAN involves industrial and academic partners from 5 countries.

36. MERMAID: www.mermaidproject.eu , budget: 7.4 million euro

MERMAID - Innovative Multi-purpose Off-shore Platforms: Planning, Design and Operation – aims at developing novel innovative design concepts for offshore platforms to address different physical conditions (from deep water to shallow and inner waters) in order to make the best use of the ocean space. Launched in January 2012 for 3 years, MERMAID gathers 28 partners from 13 countries, under the coordination of Danmarks Tekniske Universitet (Denmark).

Coordinator: Technical University of Denmark, Denmark.

36, 37, 38. THE OCEAN OF TOMORROW: The European Union, has launched in 2011 'THE OCEAN OF TOMORROW' call for proposals. Through this programme, the EU has made available to the scientific and entrepreneurial community a total funding of €14 M (project specific budgets mentioned below include both EC and non EC financial contribution) for up to three projects that explore the design of Offshore Multi-use Platforms, in which a mixture of different sectors and specific functions can be performed in a shared location with shared infrastructure (and costs) and could prove to be an important opportunity for improved utilisation of the oceans as well as sustainable economic growth. Therefore, developing a concept of Multi-use Oceanic Platforms has become one of the EU's most interesting bets to guarantee the use and synergistic exploitation of oceanic resources in a sustainable and eco-friendly manner. The three selected and financed projects in the framework of 'The bookTomorrow' call for proposals, for which **I coordinate the socio-economic analysis**, are:

<https://events.economist.com/events-conferences/emea/the-second-sustainability-forum-for-south-east-europe-and-the-mediterranean/>

Overview of 2018 event: Following the adoption of the 17 Sustainable Development Goals within the context of Agenda 2030, governments and the private sector are working on establishing ways and practices that will allow efficient and effective implementation of the Goals. On the way to achieving sustainability by 2030, technological developments, innovative practices and materials, sustainable investment and new partnerships are being pursued, with the hope to lead humanity to this new era of development and welfare. On the other hand, conceptual challenges, weak governance structures and institutions, limited transparency and financing restrictions are only some of the shortcomings that hinder progress toward this end.

- Can these shortcomings be overcome?
- Can modern tools, action plans and initiatives be created and implemented to effectively engage in the promotion of the SDGs?
- Is it possible to cut across the isolation of sectors and create synergies overcoming the Silo Effect?
- How will private businesses at the national and global level turn this challenge into new opportunities and prepare for the future?

56. Circular Economy in Smart Speciliazation Strategy Workshop, co-organized by EIT Climate KIC Greek Hub and the Greek Ministry of the Environment and Energy, Ovtober, 2019, Athens.

55. Member of the Organizing Committee of the conference on “**Climate Change Impacts on Cultural Heritage: Facing the Challenge**”. Ministry of Foreign Affairs of Greece, Athens 21-22 June, 2019.

54. 18/04: **Athens Circular Forum-Symbiosis: Circular economy at the cities: the Greek case**, Hypatia Manton, Athens, 18/04/2019

Prof. Phoebe Koundouri, AUEB, chaired the forum, which aims at making Athens and Attica a promising example of an international player, acting as a beacon of innovation and disseminating good practices across Greece. Among the speakers are:

- Giannis Maniatis, ex Minister of Energy, Environment & Climate Change, Member of Parliament, Professor at University of Piraeus
- George Vernicos, President of Economic & Social Committee, General Secretary of SETE, Honorary President of Greenpeace & entrepreneur in shipping, tourism and yachting
- Maria Lekakou, Dean of the Business School of the University of Aegean, Professor of Maritime Economics, running the Blue Growth initiative for the promotion of ocean literacy and blue entrepreneurship
- George Kofinakis, Managing Director of Storm Harbour LLP in London, Chairman of the BoD of EuPraxis FSI, previously CEO and Executive Director of a Private Equity Fund in Luxemburg focusing on Renewables and Green Investments, Distinguished Executive-in-Residence for Rutgers Graduate Business School.

53. 04/04: **Athens Science Festival**, Technopolis, Athens, Thursday 4th April 2019.

"Athens Science Festival" took place at Technopolis, Athens, bringing all citizens close to science. The main focus of the festival is to demonstrate modern scientific and technological performance and to bring new knowledge through a continuous and open dialogue with the public. Among the events of the festival EIT Climate KIC Greece organized the session:

"Climate Change: Science, Innovation and Participation", where:

- Prof. Phoebe Koundouri (Athens University of Economics and Business) and Director of EIT Climate-KIC Greece (Athena RC)
- Dora Trachana, Uni.Fund
- Eleni Atsikbasis, founder of "Healing Lesvos"
- Efi Tritopoulou, General Director of "Citipost"
- Lefteris Arapakis, Director and Co-founder of "Enaleia"
- Giorgos Iliou, vice-mayor of Kithnos

Lastly, Eleni Petra, Elli Papadopoulou and Lydia Papadaki engaged the audience in an interactive game regarding the SDGs and the Climate Change.

52. **Climate Change Symposium: Threats, Challenges, Solutions for Greece**, DERE

University and UN SDSN Greece, @ DERE University, Wednesday 3rd April 2019. "Climate Change Symposium: Threats, Challenges, Solutions for Greece" took place at the American College of Greece, DERE. Aiming at presenting the scientific content of Climate Change in Greece, specialists from different fields joined the panel showing how to formulate holistic solutions able to combat this global problem and eliminate its negative impacts for the environment and the society. The main speakers of the Symposium were:

- Prof. Phoebe Koundouri, AUEB.
- Yannis Stournaras, Governor, Bank of Greece
- Socrates Famellos, alternate minister for energy and environment
- Prof. Dimitris Lalas

- Prof. Manolis Pleionis, Director and President of the board of directors of the National Observatory of Athens (NOA)
- Nikos Charalambides, Executive Director of Greenpeace Greece
- Dr. Michael T. Valahas, Director, Centre of Excellence for sustainability, Office of public affairs, the American College of Greece
- Prof. Andreas Papandreou, Professor of Environmental Economics, National and Kapodistrian University of Athens
- Prof. Stella Apostolaki, Deree and senior researcher at ICRE8

After the panel discussions, participants had the chance to join games related to Climate Change to enhance the understanding of CC impacts, identify level of awareness and assist the process of formulating relevant solutions. The games were: 'SDGs and Climate', an interactive test of knowledge game, 'Debating Tennis', a game in which players debate and argue in favour or against motions/statements related to climate change and 'Stabilization Wedges Game', a team-based exercise (a Board Game) that teaches players about the scale of the greenhouse gas problem.

51. Convergences Greece Forum, 1-2 April, 2019

Convergences Greece Forum is the first platform for thought in Europe that aims at building new convergences between public, private, and solidarity-based actors to promote the Sustainable Development Goals and the development of a world "Zero Exclusion, Zero Carbon, Zero Poverty." The Convergences Greece Forum is under the auspices of the President of the Republic and is co-organized by the International Convergences Forum and the World Human Forum in cooperation with UN Sustainable Network Solution Network Greece. During the forums taken place on Tuesday, April 2, at the "The Hub Events" organizations, companies, private and public bodies, representatives of SMEs, academics, students and citizens will meet not to recycle problems but to jointly seek sustainable solutions to the most important issues they face our country. Among these forums, Prof. Phoebe Koundouri, Prof. Lenio Myrivili, Marianthi Liapi, Eric Scotto, Dr. Andriasopoulos and other speakers discussed potential solutions aiming to make cities Green!

50. Conference on the Energy Economics and Law for the launch of the new MSc in Energy Economics and Law, School of Economics, Athens University of Economics and Business, Greece, 27/03/2018

Specialists from all energy fields participated in the conference giving insights from their individual fields of work. Among the speakers were:

- Phoebe Koundouri, Professor at the Athens University of Economics and Business, Director of the Research Center for Socio-Economic and Environmental Sustainability (ReSEES), co-chair UN Sustainable Development Solutions Network, Director of the EIT Climate-KIC Hub Greece
- Prof. Andreas Papandreou, Professor at National and Kapodistrian University of Athens, co-chair UN Sustainable Development Solutions Network
- Vera Alexandropoulou, Vice President at Thalassa Foundation
- Dr. Katerina Pramataris, Associate Professor at the Department of Management Science and Technology of the Athens University of Economics and Business, Partner of Uni.Fund
- Zissimos Mantas, Senior Business Development Officer at Eunice Energy Group

Luncheon Panel on Climate Change, Marianna Vardinogiannis Foundation, Athens, 22 January 2020 "European Green Deal: Challenges and Opportunities".

ABSTRACT: According to IPCC latest report, we have 10 years to limit climate change catastrophe and keep global warming to a maximum of 1.5 C, a point beyond which even half a degree will significantly worsen the risks of drought, floods, extreme heat and poverty for hundreds of millions of people. Global net human-caused emissions of carbon dioxide (CO₂) would need to drop by about 45% from 2010 levels by 2030, reaching "net zero" around 2050.

The European Green Deal is a roadmap for making the EU's economy sustainable by turning climate and environmental challenges into opportunities across all policy areas and making the transition just and inclusive for all. The European Green Deal is our new growth strategy and provides a roadmap with actions to boost the efficient use of resources by moving to a clean, circular economy and stop climate change, revert biodiversity loss and cut pollution. It outlines the investments needed and financing tools available and explains how to ensure a just and inclusive transition. The European Green Deal covers all sectors of the economy, notably transport, energy, agriculture, buildings, and industries such as steel, cement, ICT, textiles and chemicals.

This panel aims to discuss the potential of Greece's research and innovation ecosystem, together with the financial and policy institutions, to accelerate the much-needed sustainability transition and implement the European Green Deal. By showing the rest of the

world how to be sustainable and competitive, we can convince other countries to move with us.

4. 70th Annual Seminar of the European Association of Agricultural Economists, August 2000, University of Thessalonica, Greece.

- *On the Use of the Stochastic Distance Function to Deriving Resource Scarcity Rents.*

3. Tenth Annual Conference of the European Association of Environmental and Resource Economists, June, 2000, University of Crete, Rethymnon, Crete, Greece.

- *Dynamic Adaptation to Resource Depletion with Backstop Technology: A Partial Resolution of the Gisser-Sanchez Effect.*

2. Mediterranean Conference: 'Policies and Strategies for Desalination and Renewable Energies', Santorini, Greece, June 2000, National University of Athens, Renewable Energy Sources Unit, Athens, Greece.

- *Dynamic Adaptation to Resource Depletion with Backstop Technology: A Partial Resolution of the Gisser-Sanchez Effect.*

1. Annual Conference of American Economic Association, 1998, Berlin, Germany.

- *Reconsidering the Mathematical Structure of the Gisser-Sanchez Paradox in Water Resource Management.*

Workshop Presentations and Meetings

97. Expert Lecture, International FDP (OE4BW) UNESCO Project, on Environment and Sustainability for 614 faculty from India, 26 May 2020.

96. 1st Academia & Institutions Pillar Live Session. Innovation Shipping Cluster workshop. A new SHipping Innovation Cluster in the making and Prof. Phoebe Koundouri is part of it [#5PillarsStrong](#) initiative being driven by Optima-X and Fathom World., 25 May 2020

95. Invited Speaker, Delphi Economic Forum V, Delphi, Greece. 5-8 Mar 2020:

-
- Sustainable Shipping and Ports: UN SDSN Global Rountable
 - Climate Change Effects on Cultural and Natural Heritage: The Greek UN Initiative

94. Invited Speaker, AXXA Workshop, Royal Olympic Hotel, Athens. 3 Dec 2019: Climate Change and the Insurance Market.

93. Invited Speaker, There is no Plan(et) B: A Climate Reality Workshop, 21 Nov 2019, Athens.

92. Invited Speaker, European Comission DG Mare, October, 2019, Brussels: Workshop on "Study on the Economics Impact of Maritime Spatial Planing".

91. Workshop on the Cluster of Water-Food-Energy Nexus European Commision Project, 29th Oct 2019, Brussels. Title of my speech: SDGs and Education

90. Invited Speaker to " EIT RawMaterials: 3rd Greek Raw Materials Community Dialogue " , Athens, 4th-5th of December 2018.

89. A.C. Laskaridis Charitable Foundation, Athens, 20th of November 2018.

Presentation on " Blue Economy "

88. ELTRUN, AUEB - "The Next Day for Energy Efficiency" ,

International Workshop

87. Invited Speaker to "Heineken Growth Makers Nights" , " Orange Grove " ,

30 October 2018

86. Invited Speaker to Delphi Economic Forum IV entitled "Inclusive Growth". The Forum will take place in historic Delphi, Greece, a UNESCO world heritage site, from February 28th to March 3rd, 2019.

85. Invited Speaker to the "UN SDSN Black Sea Launch event", Aristotle University of Thessaloniki, 25 October 2018.

84. Keynote Speaker, Session 4: **"IMPLICATIONS, ecosystem services and socio-economy"**, GLOBAQUA Final Conference entitled "Water river management under water scarcity and multiple stressors" 18-19 December 2018, Barcelona (Spain)

83. Lecture on " **the Water Policy and Management course** ", 8 September 2018, Graduate School of Public Policy, Nazarbayev University, Astana, Republic of Kazakhstan

82. **1st PELAGOS Greek Hub for Blue Energy Workshop on spatial planning, Coastal Zone Management and social acceptance of MRE**, Athens, 25 May 2018.

- Presentation on "Socio-economic benefits and acceptance of MRE projects"

81. Keynote Speaker, **"Sustainable Development with the Co-operation of Local Communities in the area of Mainalon"** Workshop organized by AE MAINALON, under the auspices of [SDSN Greece](#), 21 April 2018, Vitina, Greece

80. **Inaugural Nexus Cluster Workshop**, 16 March 2018, Athens.

79. **European Climate Research Alliance (ECRA) Joint Collaborative Programs Workshop** on "Changes in the Hydrological Cycle & High Impact Events and Climate Change", 9 March 2017, Brussels, Belgium.

78. **GLOBAQUA Meeting**: Managing the Effects of Multiple Stressors on Aquatic Ecosystems Under Water Scarcity, EC FP7 DG-Research Project (<http://globaqua-project.eu/>) 28-29 November 2016, ICRE8 Premises, Athens, Greece.
The scope of the meeting revolved around the integration of the work of the different work

packages (WP2, WP8, WP9, WP10, WP11) with regards to different aspects of climate change scenarios that each team works on.

77. **DAFNE kick off meeting:** "Decision-Analytic Framework to explore the water-energy-food NExus in complex and transboundary water resources systems of fast growing developing countries", organized by ETH, 7-9 September 2016, Zurich, Switzerland.

76. **GLOBAQUA** (Managing the effects of multiple stressors on aquatic ecosystems with water scarcity) meeting of Steering Committee and Work Package Leaders, organized by IDAEA-CSIC, 20-21 September 2016, Barcelona, Spain.

75. **SMIRES** (Science and Management of Intermittent Rivers and Ephemeral Streams) Cross Working Group meeting, organized by IRSTEA, 12th September 2016, Lyon, France.

74. International Workshop on "**Analytical tools to evaluate the impact of public policies on Sustainable Development Goals**", organized by Fondazione Eni Enrico Mattei, 27th September 2016, Milan headquarter, Italy. Invited chair of session on "Sustainable Development in a changing world".

73. Lecture on "Sustainable Agriculture and Data Needs", ATHENA Research Center in cooperation with RDA Europe project organized Wheat Community Datathon. Athena Research and Innovation Center, Athens, Greece, July, 2016

72. 1st **SMIRES** Management Committee (MC) meeting - Brussels, March 11th 2016

71. **PRIMA** Expert Group Meeting - European Commission, Brussels, 8th March 2016

70. **GLOBAQUA Project** (Grant Agreement no 603629), **2nd General Assembly**, Managing the effects of multiple stressors on aquatic ecosystems under water scarcity Collaborative Project 13-14 January 2016.

69. Invited Speaker to **Workshop on David W. Pearce: '10 Years after Pearce'**, London School of Economics, London, UK, 10th September 2015.

68. **GLOBAQUA Meeting:** Managing the Effects of Multiple Stressors on Aquatic Ecosystems Under Water Scarcity, EC FP7 DG-Research Project (<http://globaqua-project.eu/>) 23-24 March 2015: Climate Change and Socio-Economic Scenarios Building, ICRE8 Premises, Athens, Greece.

67. **7th MERMAID meeting** at Elsinor, Denmark, March 18-20th 2015
Innovative Multi-Purpose Off-Shore Platforms, Planning Design and Operation (MERMAID: <http://www.mermaidproject.eu/>): FP7 project, EC, DG-Research Elsinor, Denmark Meeting, March 18-20th 2015.
Plenary Presentation by Prof. Koundouri: The Assessment Tool for Identifying Welfare Increasing Off-Shore Platforms.

66. **Workshop on Methods and decision-making framework for a policy-driven Biodiversity in Crete**
Organized by the Hellenic Centre for Marine Research (<http://www.hcmr.gr/en/>), Friday 20th March, Chamber of Commerce, Heraklion, **Crete, Greece**.

The aim of the workshop is to inform the general public, scientific and productive institutions and administration for innovative tools and new institutional frameworks that can contribute to policy making and decision-making environmental management, in light of promotion, enhancement and protection of biodiversity of Crete.

-Ecosystem Based Valuation of Biodiversity and Integration of Biodiversity Value in Policy Making

65. OpenAIREplus Final Review, 27th January 2015, Kostis Palamas, University of Athens, Athens, Greece.

- OpenAIRE Sustainability Study: The Financial Viability of the OpenAIRE European platform for Access to Scientific Information.

64. Jointed Meeting: Globaqua (Managing the Effects of Multiple Stressors on aquatic ecosystem under Water Scarcity) and **MARS** (Managing Aquatic Ecosystems and Water Resources under Multiple Stress), Instituto Superior Tecnico, Lisbon, Portugal,
- Identify the prevalence, interaction and linkages between stressors in multiple stressor situations: water as a central stressor

63. MERMAID Project Meeting and Workshop. 17-19, September, 2014, Bologna, Italy.
- Socio-Economics of Innovative Offshore Platforms: A Framework of Analysis and Empirical Applications

62. Greece and the European Union: Wind Energy and Renewable Energy Targets for 2030. Organized by the Greek Scientific Association for Wind Energy. Athens, 9 April, 2014.
- The Ocean of Tomorrow: The Economics of Energy Production on Offshore Platforms.

61. European Workshop on ‘Socio-Economics of Innovative Offshore Platforms: A Framework of Analysis and Empirical Applications’, Athens, March, 21, 2014. (Sponsor: European Commission, DG Research and Innovation)
- Merging the Socio-economic Methodology of European Commission’s Research on Multi-Use Off-shore Platform

60. GLOBAQUA kick-off meeting, Barcelona, 18-19 Feb. 2014. Managing the Effects of Multiple Stressors on Aquatic Ecosystems Under Water Scarcity, European Commission
- A Methodology for Implementing the Water Framework Directive in Water Scarce European Region via the Ecosystem Services Approach to Valuing Water Resources.

59. Council Meeting of the European Association of Environmental and Resource Economics, Helsinki, 31 January, 2014.

58. OpenAIRE Workshop on Legal and Sustainability Issues, Vilnius, Lithuania, 5 November, 2013.

- Preliminary Results of the OpenAIRE Sustainability Study

57. GLOBAL IQ Project Workshop, Rome, 25-26 September, 2013.

56. THESUS FP7 Project Meeting, Varna, 15-17 Bulgaria, May, 2013.

- *Insurance Instruments for Extreme Climate Events*

- *Costs Benefits Analysis in Decisions Support Systems for Extreme Climate Events*

55. GENESIS FP7 Meeting, Krakow, 8-9 May, 2013.

- *Different Methodologies towards Valuing Groundwater Benefits: Results from GENESIS WP6*

54. MERMAID FP7 Project Meeting, Deltares, Delft, The Netherlands, 17-18, April, 2013.

- *Plenary on Costs Benefits Analysis of Off-Shore Platforms.*

53. European Association of Environmental and Resource Economics Council Meeting, Technical University of Istanbul, Istanbul, 1st, March, 2013.

52. MERMAID FP7 European Project Meeting, ITU, Istanbul, 24th-26th September, 2012.

- *Plenary Session Lecture: Deriving Economic Values from Stakeholders Preferences.*

51. GENESIS FP6 European Integrated Project Meeting. Ferrara, Italy, 11-14 March, 2011.

- *A Choice Experiment and Distance Function Econometric Analysis Informing the Implementation of the WFD.*

50. GENESIS European Integrated Project Meeting. Zurich, Switzerland, 17 December, 2010.

- *A Choice Experiment and Distance Function Econometric Analysis Informing the Implementation of the WFD.*

49. GENESIS European Integrated Project Meeting. Valencia, Spain, 25-28 October, 2010.

- *Measuring the Value of Water in Agriculture under Climate Change Uncertainty: A Micro-econometric Analysis on Vosvozi case study.*

48. GENESIS European Integrated Project Meeting. Rokua, Finland, 28-30 October, 2010.

- *The Value of Scientific Information: A Choice Experiment.*

47. THESEUS: Innovative coastal technologies for safer European coasts in a changing climate. European Integrated Project Meeting. Leuven, Belgium, 2-4 June, 2010.

- *The Economic Valuation of the Effects of Floods: A Choice Experiment*

46. THESEUS: Innovative coastal technologies for safer European coasts in a changing climate. European Integrated Project Meeting. Venice, Italy, 9-11 December, 2009.

- *Natural Disasters and Insurance Markets*

45. Bank of Greece Workshop on Climate Change Economics in Greece. Bank of Greece, Athens, 16 March, 2010.

44. GENESIS European Integrated Project Meeting. Alexandroupolis, Thraki Palace Hotel and Conference Centre, March 22-26, 2010.

- *Cost-Benefit Analysis in the Implementation of the Water Framework Directive.*

43. European Workshop on Groundwater and dependent Ecosystems: New Scientific basis on climate change and land-use impacts for the update of the EU Groundwater Directive. 14-19 April, 2009, Istanbul, Turkey

- *Economic Methods in Revealing the anthropocentric Values of Groundwater and dependent Ecosystems*

42. Scientific Workshop on Southern European Seas: Assessing and Modelling the changes in Ecosystems. Palma de Mallorca, Spain, 1- 3, April, 2009.

- *An eco-systemic Choice Experiment on the Black Sea*

41. Scientific Workshop on Southern European Seas: Assessing and Modelling the changes in Ecosystems. Palma de Mallorca, Spain, 17-19 November, 2008.

- Revealing tourists' preferences for biodiversity: A choice experiment in Crimea
- Valuation of natural marine ecosystems: An economic perspective.

40. Invited Speaker, The Mediterranean Science Commission (CIESM - <http://www.ciesm.org>) Workshop on 'Economic Valuation of Natural Mediterranean Marine Ecosystems', Bodrum, Turkey, 22 - 25 October, 2008.

39. Invited Speaker, AQUASTRESS Meeting, Nafplio, Greece, 12-15 February, 2007.

38. European Workshop on Southern European Seas: Assessing and Modelling Ecosystem Changes Workshop, Anavissos, Greece, Hellenic Centre for Marine Research, 29 Noember- 1 December, 2006.

37. North Atlantic Treaty Organization (NATO) Advanced Research Workshop (ARW)

- Wastewater Reuse - Risk Assessment Decision-Making and Environmental Security. (Invited Speaker), Istanbul, Turkey, October 12-16, 2006.

36. Invited Speaker, AQUASTRESS Meeting, Brussels, 28-30 June, 2006.

35. Invited Speaker, AQUASTRESS Meeting, Cyprus, 26-27 June, 2006.

34. Invited Speaker, IASON (International Action for Sustainability of the Mediterranean and Black Sea Environment) Workshop, Anavissos, Greece, Hellenic Centre for Marine Research, February 5th, 2006.

- *The Economic Valuation of Marine Resources: Methods and techniques.*

33. Invited Speaker, EROLIMPACS Workshop on Impact Evaluation of Global Change on Freshwater Ecosystems, Athens, September 5-9, 2005.

- *Using a Choice Experiment to Account for Preference Heterogeneity in Wetland Attributes: The case of Cheimaditida wetland in Greece.*

32. Invited Speaker, Workshop on 'Coping with Water Stress in Europe', University of Hannover, May 24-25, 2005.

- *Economic Valuation Methods for Efficient Water Management.*
- *Economic Instruments for Integrated Resource Management in Arid and Semi-Arid Regions.*

31. Meeting on 'The Impact of REACH on the Environment and Human Health', European Commission, DG Environment, Brussels, September 17th, 2005.

- *The impact of REACH on the environment and human health: The Economic Aspects of the Valuation of the Impact, European Commission, DG Environment.*

30. AQUASTRESS: Mitigation of water stress through new approaches integrating management, technical, economic and institutional instruments, FP6 Global change and Ecosystems, EC Contract No 511231, Kick-off meeting, Rome, CNR & Frascati, February 2nd-4th, 2005.

29. IASON: International Action for Sustainability of the Mediterranean and Black Sea Environment, Kick-off meeting, Anavissos, Greece, Hellenic Centre for Marine Research, February 5th, 2005.

28. Invited Speaker, OECD Workshop on 'Evaluating Agri-environmental Policies', Paris, 6-8, December 2004.

27. Invited Speaker, Joint Workshop on 'Drought and Water Deficiency: from research to policy making', organized by the European Commission (DG Research and DG Environment) and France, and supported by the ARID Cluster, Palermo, Sicily, 6-9, October, 2004.

- Valuing Water in a Watershed in the Absence of Market Prices.

26. Invited Speaker, Science for Sustainable Marine Bioresources- Open Meeting 2 September 2004, Edinburgh.

25. World Bank GW-MATE six month progress meeting, Washington, 20-23, June, 2004.

- The Economics of Arsenic Mitigation: A Methodology for Rapid Cost-Benefit Appraisal.

24. Invited Speaker, World Bank Workshop on Groundwater Management, Bangon, 15-17, November, 2004.

- The Economics of Groundwater Management.

23. Invited Speaker and Working Group Leader in International Workshop on 'Valuing the Biological Diversity of Crops in a Development Context' with the support of BIOECON and FAO, March 29 – 30, 2004, Rome, Italy.

- Econometric Techniques for Valuing Biodiversity.

22. Invited Speaker, International Workshop on 'Valuing European Wetlands', March 7-12, Innsbruck, Austria.

- The Contingent Valuation Methods for Estimating Monetary Values for Marginal Wetlands.

- The Land Use Allocation Model: Theory and Application to the UK.

21. Invited Speaker in World Bank Workshop on 'Arsenic Contamination in South Asia and East Asia Regions – Extent and State-of-the-Art Knowledge', January 2003, World Bank Headquarters, Washington, USA.

- The Economics of Arsenic Mitigation.

20. Invited Speaker in Stakeholder European Workshop on 'Impact Assessment of REACH', November 21, 2003, European Commission, Brussels, Belgium.

- The Social Cost of Chemicals: An Economic Evaluation of the EU Chemicals Directive.

19. Invited Speaker for the 3rd MEDIS European Workshop 'Towards Sustainable Water Use on Mediterranean Islands: Addressing Conflicting Demands and Varying Hydrological, Social and Economic Conditions', October 30-31, 2003, Heraklion, Crete, Greece.

- Economics of Water in the European Union: Problems, Principles and Policies.

- *ARID Cluster: Results and Future Research Priorities.*

18. Invited Speaker for the 3rd WaterStrategyMan European Workshop on 'Developing Strategies for Regulating and Managing Water Resources and Demand in Water Deficient Regions', October 8-10, 2003, Paris, France.

- *ARID Cluster: Results and Future Research Priorities.*

17. Invited Speaker for the European Workshop on 'Advanced Project Interactions in Catchment Modelling', September 16-17, 2003, Amsterdam, The Netherlands.

<http://www.harmoni-ca.info/~pclaey/WorkDirHarmoniCA/WSCatchMod.html>

- *Integrated Water Management in Arid European Regions: Synergies among European Projects.*

16. Invited Speaker for SUSTAINIS European Commission Advanced Training Course on 'Sustainable Use of Water on Mediterranean Islands: Conditions, Obstacles and Perspectives', 27th September - 12th October 2003, Ayia Napa, Cyprus.

- *'Design and Implementation of an Integrated Water Management Approach'.*

15. Invited Speaker in 'Groundwater Management for Bank Operations Training Course', September 3-5, 2003, World Bank Headquarters, Washington, USA.

'The Economics of Groundwater Management'.

14. Fourth BIOECON European Workshop on The Economics of Biodiversity and Conservation, August 28-29, 2003, Venice, Italy. <http://www.feem.it/bioecon>

'Multi-Output Distance Function for the North Sea Beam Trawl Fishery'.

13. Invited Speaker for the European Workshop on 'Vulnerability of European Ecosystems Facing Increasing Drought Risk', April 10-12, 2003, Samos, Greece. http://www.pik-potsdam.de/avec/avec_droughts.html
